POLICE COMB WINNIPEG FOR BOLD BANK ROBBER

Ten Weeks' Session Of B.C. Legislature Appears Probable

Much Important Legislation Yet to Come Before B.C. House; Motion to Revive Blue Line's Application for Exclusive Franchise in Oak Bay Up for Discussion This Week.

Ten weeks after the British Columbia Legislature opened on January 28 will probably see the burden removed from the minds of the legislators and all the business completed. A review of the legislation on the order papers and legislation of major importance which, it is expected, will be brought down indicates that sittings for another three weeks will be necessary, although some of the members think two weeks will be sufficient. Night sessions are scheduled to start tonight. Indications of a shorter session as a result of the cutting down of the speech debate did not materialize.

No intimation has yet been given as to when Attorney-General Pooley will bring down his bill to make the liquor board a three-man board instead of a one-man board as at present. This will probably stir up considerable discussion.

FISHERY PROPOSALS

Hon. S. L. Howe has yet to bring down his amendments to the Fisheries Act, bringing canneries under provincial control. As a result of many meetings of the fisheries committee of the Legislature, which was organized for the first time this year, and the strenuous objection to the regulations at first proposed, these amendments will undoubtedly be vastly different from those originally contemplated. It is understood all efforts to limit canning and fishing in British Columbia have been abandoned. The government will administer the canning business on its own responsibility and grant or refuse canning licenses as it sees fit. No attempt will be made to put a limit on fishing operations or on fishing gear, it is thought.

TWO HURT AS LUMBER FALLS

Scaffolding at New Bank Building in Vancouver Gives Way

Vancouver, March 10.—Two men, one a R.C.M.P. constable, were hurt shortly before 9 a.m. today when fifty feet of scaffolding on the Royal Bank construction here suddenly collapsed under weight of lumber. Jimmy Vaughan, forty, was buried beneath a pile of wood and debris for three minutes. Rescued by city firemen, he was found to have suffered only a cut over the right eye, injuries to the shoulder and elbow and nervous shock. Constable Bella of the Royal Canadian Mounted Police was struck on the leg by a section of lumber as he passed by. The crash came without warning. Four workmen were piling lumber on the platform atop the hoarding when the supports collapsed. As the scaffolding toppled inward, three of the men leaped out to the sidewalk. Vaughan was thrown down feet on the ground and trapped beneath the wreckage.

Naval Parley Men Grapple Big Task

London, March 10.—The chief delegates of Great Britain, the United States and France to the Naval Limitation Conference here tackled the first great crisis of the Conference today when they faced each other across a table in St. James's Palace for consideration of France's demand for a guarantee of security.

For more than an hour the French position was under the conference microscope. In exchange for such a guarantee, France has let it be known she is prepared to cut her claim for a big navy aggregating 724,000 tons in five years. It was a matter of utmost gravity which Premier MacDonald, Secretary Stimson and M. Briand were called upon to handle. Upon its outcome depends success or failure in this greatest of all disarmament conferences.

BYRD PARTY ARE WELCOMED AT DUNEDIN

Antarctic Explorers Greeted By Thousands of New Zealanders on Return

Radio to Carry Statement By Leader To-morrow Morning

Canadian Press
Dunedin, N.Z., March 10.—Rear-Admiral Richard E. Byrd, explorer, and the members of his Antarctic expedition, returned to Dunedin today after spending more than a year in scientific exploration of the frozen regions at the bottom of the world.

All Dunedin turned out to greet the discoverers of the Antarctic region which was named Marie Byrd Land in honor of the leader's wife. That discovery was rated by Byrd as the most important accomplishment of the expedition.

Asked how it felt to fly over the South Pole, Byrd said: "Very much like flying over the North Pole, except the North Pole was bumpier." Byrd is the only man who has flown over both Poles.

Tumultuous enthusiasm held sway as the expedition, borne by the barque City of New York and the steamer Eleanor Bolling, entered the harbor of Dunedin. Dunedin was the last city to bid Byrd good-bye when he set out for the Antarctic in December, 1928.

CROWD ON SHORE
Thousands of persons lined the waterfront to witness the return. Bands (Concluded on Page 17)

REDS CLAIMING PARADE RIGHT IN WINNIPEG

Canadian Press
Winnipeg, March 10.—Winnipeg Communists plan to parade next Thursday afternoon "whether a permit is granted or not." Nearly a thousand members of the organization were told this by Alderman W. N. Kollanik, Communist leader, and member of the City Council, at a mass meeting in a theatre yesterday.

Kollanik protested the right of the police to have broken up an attempted parade last Thursday. "The police succeeded in crushing the work of the Communists," he added. "We must win in the end," he added.

The procession scheduled for last Thursday was to have been held as a demonstration against the working classes. "We didn't apply for a permit to parade because we knew our petition would not be granted," declared the Communist spokesman.

He said the party would apply today for a permit to parade next Thursday.

Lieut.-Governor Bruce and Miss Helen Mackenzie On Their Way To New Brunswick House Opening

For the first time in the history of the New Brunswick Legislature two Lieut.-Governors, attended the opening on February 28, Hon. Hugh H. McLean, K.C., of New Brunswick, and Hon. R. Randolph Bruce of British Columbia. In the above picture Lieut.-Governor Bruce, accompanied by his niece Miss Helen Mackenzie, is shown enjoying a sleigh ride to the opening ceremonies.

Unemployment Test In British Commons

MORE RAIN IN THE FRENCH FLOOD AREAS

New Dangers Seen as Storms Continue; Total Deaths Estimated at 400

Canadian Press
Agen, France, March 10.—Torrential rains again descended on the flood regions of southern France today at Agen, Moissac and Montauban, greatly hampering work of excavating in the search for bodies in the two latter towns.

Little donkey-engines were stationed at nearly every door pumping out cellars, but making little headway. The homeless of Moissac were sheltered in an army barracks while those in Agen are being taken care of at the artillery school building here.

Thirty-five bodies found in one house at Moissac yesterday were all inhabitants of the one residence. Seventeen adults and eighteen children were buried completely in the ruins. In Moissac the bodies recovered numbered 131. It is expected the deaths there alone will be found to number 160.

Estimates of the total number of dead range between 400 and 500.

DR. F. A. COOK, OUT OF PRISON, PLANS NEW LIFE

Leaves Kansas on Parole; to Study Cure For Narcotic Degeneration

Canadian Press
Leavenworth, Kas., March 10.—Dr. Frederick A. Cook, sixty-five-year-old physician-explorer, today is a free man, his prison sentence behind him.

His release on parole from the federal penitentiary here came yesterday afternoon. Yesterday morning, Dr. Cook was No. 23,118, night inmate in the prison hospital. Yesterday evening he was free, a man of science and medicine, his immediate plans dedicated to a study of cure for narcotic degeneration. His will was set in support of his claim of discovery of the North Pole in 1908.

STUDIED IN PRISON
Prison has meant five years of study, of nights filled with calls for aid from suffering prisoners and also a period of rest for the explorer.

(Concluded on Page 20)

ALBERTA M.P.'S SPEED UP
Edmonton, March 10.—It is likely that the Alberta Legislature's session will come to an end on March 20 next, leaving only eight working days after today in which to finish at least four major matters. The new School Act, the new Mines Act, Redistribution and the Natural Resources (temporary) Act, all remain to be definitely decided.

EARL OF BALFOUR ILL IN ENGLAND

Woking, Eng., March 10.—The Earl of Balfour, who is staying with his brother at Fisher's Hill, near here, is suffering from a chill which is keeping him indoors.

The following bulletin was issued today: "Lord Balfour's condition has not been so satisfactory during the last few days, but is not causing immediate anxiety."

He is in his eighty-second year.

WHEAT EXPORT OUTLOOK GIVES POOR PROMISE

Montreal-Gazette Says Companies in That City Find Prospects Discouraging

Not Even One Full Ship Cargo Booked Yet For Opening of Navigation

Montreal, March 10.—The Montreal Gazette, in a review of the prospects of export grain business when shipping on the Great Lakes and out of Montreal gets under way about the end of April or the beginning of May, finds the prospects "anything but bright."

The review in part is as follows: "A survey of the situation, including contact with the key men of the grain and shipping trade, reveals prospects that are anything but bright. Some rays of sunshine which would pierce the prevailing gloom over the industry and chase away the shadows reflected on other basic lines of the country are eagerly looked for, but the goods simply are not there."

"Not a single full cargo of grain has been booked for the opening of navigation out of the port of Montreal. A small amount of liner space has (Concluded on Page 17)

Close Votes In the British House Soon

Canadian Press
London, March 10.—The possibility the Government might be defeated on some votes on amendments to the Coal Bill, coming before the House of Commons tomorrow evening, was a topic of discussion in Commons circles today.

Political observers do not believe, however, that this would mean the Government would either abandon the bill or resign as the amendments whereon it might be defeated do not concern vital sections of the measure. "The Liberals will meet this evening to determine their attitude toward further amendments. It is considered likely there will be a number of close divisions, as Conservative support of some Liberal amendments to the bill is believed certain."

NUMBER HURT IN CLASH IN SOUTH AFRICA

Capetown, South Africa, March 10.—The long-standing quarrel between the European and the native elements of the Union flared into flame yesterday at the village of Rawsonville, near Worcester, in the Cape Province. Nine Europeans and several natives were injured in a clash precipitated by a meeting of the African National Congress.

DISTILLERY FACTS GIVEN TO COMMONS

Government Supplies Information on Licenses Asked By Bennett

Ottawa, March 10.—This is private members' day in the House of Commons, and the opening of the afternoon sitting was occupied with government replies to questions on the order paper. Replies were made to most of the questions submitted by Hon. R. B. Bennett, Conservative leader, respecting distillery and brewery licenses. Hon. James Macdonald, acting for Hon. W. D. Buley, Minister of National Revenue, told the House some of the answers were not available in that department and the distilleries were being communicated with to secure the information.

Mr. Bennett remarked the questions were intended only to cover information in the hands of the department.

Highway Construction

A debate started when D. F. Kellner, U.F.A., Athabasca, moved a resolution: "That in the opinion of this House the government should consider the advisability of a further substantial grant being made to cover the next five years' development of highway construction." Mr. Kellner spoke of the benefits derived in Canada from tourist traffic which was encouraged by good roads.

Road building would relieve unemployment and with the unsatisfactory circumstances of the farming communities in the west, he was sure many farmers would be glad to have an opportunity to get to employment on a transcanada highway if such work were undertaken at the present time. Mr. Kellner urged a federal grant toward a transcanada highway.

The approximate cost of completing a transcanada highway Mr. Kellner fixed at \$33,000,000, and he thought the provinces would be ready to undertake such a project of the Federal Government would lend assistance.

High Honors At Taft Funeral To-morrow

Associated Press
Washington, March 10.—The body of William Howard Taft today lay in the still serenity of his home while the United States prepared to confer on his memory its highest honors.

The quietude of the pleasant old house on Wyoming Avenue was unbroken save for the occasional arrival of solicitous friends bringing expressions of sympathy to Mrs. Taft or of messengers with flowers and notes of condolence from the great of this and other nations to add to the great numbers already there.

Throughout the United States flags hung at half-mast. Congress met only to adopt resolutions of sorrow and then adjourned as a mark of respect for achievements of the former President and former Chief Justice.

With an impressive service of dignified simplicity, the nation to-morrow will heap its honors on the memory of Mr. Taft. For three hours the body will lie in state beneath the massive rotunda of the Capitol. A funeral service in All Souls' Unitarian Church, where Mr. Taft worshipped for many (Concluded on Page 17),

104 Die In Movie Fire In Southern Korea

Seoul, Korea, March 10.—One hundred and four persons were killed and more than 100 injured in a fire which broke out during a motion picture show at the Chinkai naval base in southern Korea. Most of the victims were Japanese naval men and their wives and children.

The show was being held in a warehouse at the naval base in observance of the twenty-fifth anniversary of the capture by the Japanese of Mukden in the Russo-Japanese War. The anniversary was celebrated throughout the empire today.

The film which ignited and caused the fire was a patriotic reproduction of scenes in the Russo-Japanese conflict. About 600 persons were in the building when the film burst into flames and fired the structure.

DEATH SENTENCE NOT STOPPED BY THE CABINET

Federal Ministry Says Herman Revinsky Must Be Executed at Regina

Ottawa, March 10.—Herman Revinsky, now in jail at Regina, must pay the death penalty to-morrow morning for murder. The Federal Cabinet, having reviewed the case carefully, decided there would be no interference with the sentence of the court.

STATEMENT ISSUED
The Department of Justice issued the following statement: "The Secretary of State has just announced the decision of the Governor-in-Council not to interfere with the law taking its course in the case of Revinsky, who is to be executed to-morrow morning at Regina for the murder in June, 1928, of one Katz. A variety of accounts of this case, all incomplete and inaccurate, have been widely circulated, with the result that public opinion appears to be entirely confused. The truth is that after careful analysis of the sworn evidence taken at the trial, which was overwhelmingly conclusive, the Minister of Justice and his advisers have never entertained any doubt whatever (Concluded on Page 17)

CANADA VOICES ITS REGRET AT DEATH OF TAFT

Governor-General, Premier and Many Citizens Send Messages to Washington

By KEN CLARK
Canadian Press Staff Correspondent
Washington, March 10.—Canada was quick to express her sympathy with the United States in the loss of William Howard Taft. Hon. Vincent Massey, Canadian Minister, and Mrs. Massey, called at the home of the late ex-President Sunday afternoon. The Canadian flag over the legation was at half-mast.

Messages of sympathy were received by Mrs. Taft from Viscount Willingdon, Governor-General of Canada, and Lady Willingdon, and from Premier (Concluded on Page 17),

100 MINERS TRAPPED IN PIT IN OHIO

Have Chance to Escape If Rescuers on Outside Can Inform Them

Stuebenville, Ohio, March 10.—One hundred men were reported trapped in the Wolf Run Mine of the Warner Collieries Company, three and one-half miles from Amsterdam, Jefferson County, by a fire that broke out about 2 o'clock this afternoon.

Officials of the mine said the men were trapped in the west workings, but they had a chance, they believed, to skirt the blaze and escape. Very little smoke was coming from the shaft, but a blaze was found by firemen on the inside.

Mine officials said there was an east exit by which the men could escape if they could be informed. The fire broke the telephone lines into the mine.

Robert Feathering Hall, mine superintendent, said the only way to convey information was to break through the fire wall. Firemen were fighting the blaze late today.

Cause of the fire was undetermined.

BIG FLOODS IN NATAL CAUSE OF DEATH LIST

Eleven Persons Known to Have Perished; Railway Services Broken

Capetown, Union of South Africa, March 10.—Flood sweeping over Northern Natal, cutting railroads to the Transvaal and carrying away bridges, have caused the deaths of eleven persons. It is feared a large loss of life will be reported.

The Little Bushman River, rising in huge churning waves, tore down a massive bridge forty feet above its banks near Estaboville.

The Weeman said the Estaboville district were overwhelmed by a deluge downpour that lasted for days. Four Europeans were drowned at Weeman.

Money Back If Not Satisfied

That's the way Hope sells his Made-to-order Suits.

CHARLIE HOPE
1434 GOVERNMENT STREET PHONE 2639

Nesbitt, Thomson and Company announce.

In the early part of the winter the B.C. Electric was forced to operate its steam plants and purchase power from other sources and this shortage continued throughout January. In February, however, heavy rains and thaw changed the situation, raising the B.C. Power Company's water storage from 36,000,000 kilowatt hours on February 1 to 69,000,000 kilowatt hours on February 20. Since this time, there has been no necessity to purchase power or to operate the steam plants.

Gross earnings of the B.C. Electric and allied companies for the month of January established the record figure of \$1,354,314, which represents an increase of \$98,062 over gross earnings for the corresponding month of 1929. The effect of the water shortage during this month, however, was reflected in increased operating costs which totaled \$996,716, against \$787,454 for January of 1929. Net earnings for January were \$357,598, as compared with net earnings of \$458,798 for the previous January.

Work on the construction of the new Ruskin hydro-electric development, which will have an ultimate capacity of 188,000 horsepower, is being proceeded with as rapidly as possible, and it is expected that the first unit of 47,000 horsepower will be in operation before the end of the year, thus obviating a recurrence of the situation of this winter.

In anticipation of the continued growth and the demand for electrical energy, the company is engaged in developing 117,100 horsepower, of which 101,000 horsepower will be for the mainland, and 16,100 horsepower will be for Vancouver Island.

The greatest development project is that of Bridge River, 135 miles north of Vancouver, where there is an ultimate possible capacity of 600,000 horsepower. The first stage of this development will send 54,000 horsepower to Vancouver in 1932.

OVER FIVE BILLION DOLLARS TAKEN OFF CANADIAN STOCKS IN PAPER LOSSES IN YEAR

Paper losses suffered by Canadian listed and unlisted stocks amounted to more than \$5,000,000,000, a sum more than double the gross funded debt of the Dominion, or \$555 per capita. Statistics available on 554 securities of twelve classes show a total depreciation of \$4,632,965,183, or \$9,398,854, per security, having dropped from a total high valuation of \$9,533,239,029 to a total low valuation of \$4,900,273,846.

Figures presented in the following summarized table are based on the difference in public valuation between the high and low quoted prices of each individual security. Preferred and common stocks are included, but no consideration has been taken of bonds or debentures. The groups are arranged in order of greatest depreciation.

No. of Stocks	High Valuation	Low Valuation	Depreciation
General Industrials	132 \$3,740,379,172	\$1,317,234,868	\$1,923,144,304
Mines	113 935,445,824	282,020,931	653,424,893
Public Utilities	87 1,170,545,163	711,574,589	458,970,574
Traction	11 595,998,371	339,341,903	556,656,468
Iron and Steel	73 602,730,167	249,772,306	352,957,861
Transportation	3 803,234,350	573,639,390	239,595,250
Beverages	29 302,510,423	108,319,544	194,190,879
Paper	21 404,108,573	288,075,333	184,034,022
Banks	8 517,981,074	370,664,418	147,398,058
Milling & Foodstuffs	71 278,358,490	134,106,586	122,261,904
Textiles	33 98,196,218	65,447,390	32,748,824
Trust, Loan and Investment Companies	18 83,351,708	75,076,418	10,275,288
	554 \$9,533,239,029	\$4,900,273,846	\$4,632,965,183

It is to be noted that the greatest paper loss was borne by 132 industrials, which fell from \$3,740,379,172 to \$1,317,234,868, a decrease in public valuation of \$1,923,144,304, or an average depreciation per security of \$14,569,273.

Mines of all classes lost the number of 113 suffered the second greatest depreciation of \$653,424,893, or \$5,837,449 per security, and so on down the list with thirty-seven public utilities dropping \$458,970,574; eleven traction companies \$556,656,468; seventy-three iron and steel \$352,957,861; three transportation companies \$239,595,250; twenty-nine beverages \$194,190,879; twenty-one paper securities \$184,034,022; eight banks \$147,398,058; seventy-one milling and foodstuffs \$122,261,904; thirty-three textiles \$32,748,824; and eighteen trust, loan and investment companies \$10,275,288.

Reclassifying and summarizing the foregoing twelve groups of securities according to the nature of their more general activities, we find that paper losses were borne as follows:

359 Industrials \$2,765,757,834
118 Mines 653,424,893
14 Traction 556,656,468
73 Iron and Steel 352,957,861
26 Financials 157,571,944

Bearing in mind that industrials, utilities, rails and financials, as classified in this article, are traded in chief on the Montreal and Toronto stock exchanges in Canada, and that the 118 mines comprise those listed on the Standard and other Canadian mining exchanges, our Canadian mines are

New Employment Plans Are to Be Subject of Report

Vancouver, March 10.—Recommendation that the Vancouver City Council immediately approach the Provincial Government to urge the necessity for co-operation in meeting the unemployment situation will feature the report of Ald. W. C. Atherton on his trip to Ottawa as a member of the western delegation on relief of unemployment.

Ald. Atherton returned Saturday evening after a hurried trip to the Capital, optimistic regarding the good which will result from the presentation of first-hand facts to the Federal Cabinet regarding unemployment conditions throughout British Columbia and the prairie provinces.

The promise of Premier King that there will be no renewal of present contracts for assisted immigration, given to the delegation, is taken by Ald. Atherton as an outstanding incident of the meeting between the Cabinet and the western civic representatives.

PROBATES GRANTED

Probates and administrations issued out of the Supreme Court last week included the following estates:

Alexander Cowie, late of Langford, who died on January 28, 1930; estate \$21,691.

William John Wale, late of Victoria, who died on January 27, 1930; estate \$15,873.

Reginald Rustage Hoss, who died at Vancouver on February 3, 1930; estate \$11,000.

Kate Rice, late of Sanibel, who died on December 29, 1929; estate \$3,335.

William Maddock, late of Victoria, who died on August 28, 1928; estate \$10,393.

Helen Jane Robertson, late of Victoria, who died on February 2, 1930; estate \$5,027.

Nels Benson, late of Chase, who died on December 3, 1929; estate \$1,563.

Elizabeth Allen Linsmore, late of Victoria, who died on January 27, 1930; estate \$3,082.

NEW ESSEX CHALLENGER GIVEN TEST

Victoria's Steep Hills and Sharp Turns Prove Power of Handsome New Model

Travels 26.4 Miles Per Gallon in Economy Test; Has Beautiful Lines

The introduction of the new Essex-Challenger marks the progress made during the last twelve months in the automobile industry by exceeding in every respect the performance tests carried out under newspaper observation during Challenger Week in 1929. Even the most critical have lauded the performance of this new car. Its graceful lines prove that the art of automobile designing will always be a big factor in the motor market by adding to the comfort and riding ease of the motorist and giving the motor car its rightful place as a thing of beauty.

A test of the capabilities of this latest model was carried out in Victoria last week under the observation of Gordon Mackintosh of the Victoria Daily Times. Well-known hills

in Victoria were chosen as severe tests for the new car.

A stock car was taken from the floor of the showrooms and driven to the foot of Smith's Hill, at the corner of Montrose Avenue and Blackwood Street. From a standing start at the foot in high gear, the Challenger rapidly increased the speed, rounding the bend and gaining momentum with ease, arriving at the summit at twenty miles an hour.

Speed of acceleration and comfort of riding were adequately demonstrated during the run to the Oak Bay Junction, where the turn up Terrace Avenue was made with plenty of power in reserve.

CONQUERS SYLVAN LANE

Not content with this apparently conclusive test of stamina, the driver next turned in the direction of Sylvan Lane. This is acknowledged to be one of the worst hills in the district, yet the Challenger rounded the sharp turn at the foot, straightening out at the rate of sixteen miles an hour, swept on until slackening speed to approximately ten miles an hour to make the practically hairpin bend that swings toward the observatory and arrived triumphantly at the top still in high gear and running eighteen miles an hour.

Satisfied that the car had been submitted to sufficient trial to prove the hill-climbing qualities, The Times representative congratulated Driver Lawrence Balcom on the excellent manner in which he handled the wheel over this difficult stretch.

EASY ON GAS

Added to these tests of performance was that of economy of operation. The carburetor was drained and a pint of gasoline placed in a special container hooked up directly to the carburetor. The car was driven up Yates Street, stopping at the intersection of Fort and Yates Streets, and proceeded down Port to Linden, thence to Dallas Road and along the seafont to Douglas

Street and round Beacon Hill until the gasoline was consumed. During this test the motor was kept running at an average speed of thirty miles an hour, a careful check on the mileage revealed the astounding record of 26.4 miles to the gallon by this six-cylinder car.

Guy A. Forbes, Actor, Dies in U.S.

Pittsburgh, March 10.—Guy A. Forbes, fifty-four, veteran actor, died here yesterday evening after an illness of several weeks. He was well known as a stock player, and at one time had his own company.

Forbes was born in England in 1876.

and was taken to Canada by his parents when he was three years old.

Green Seaming
A black flat crepe frock, made with an intricately cut molded bodice and tight hipline, has all of its seams made to show the tiniest line of spring green. The yoke and deep cuffs are of green.

ANNOUNCING

OUR CHANGE OF NAME

Our business, previously known as The Thomson Funeral Home, has now been extended to include Mr. T. S. Fetterly and will continue to operate under the name of "The Thomson and Fetterly Funeral Home" at the same address, 1625 Quadra Street.

Mr. Fetterly, after thirty years' experience in the mortuary business, with his own establishment in Lethbridge and with two prominent concerns on the Coast, is fully qualified to aid Mr. Thomson in rendering the same high standard of efficient service that has identified this establishment in the past.

Victoriously Proved

... in performance, economy and value

during ESSEX Challenger week

Local Records

POWER—Smith's Hill in high from standing start in high gear—Sylvan Lane and Terrace Avenue in high with ease.
(Observed by Newspaper Representative)

ECONOMY—26.4 Miles per gallon.
(Observed by Newspaper Representative)

SPEED, RELIABILITY AND ROADABILITY—Victoria to Courtenay, 4 hours, over heavy roads.

Prove What Every Essex Can Do

Come take a ride yourself. Know by personal experience what this brilliant New Essex Challenger can do. Its exploits of Challenger Week have swept the country. Essex owners led the demonstration. They were so widely

followed and aided by public participation that we are continuing the invitation to Ride—Ride—Ride!

Every locality now knows Essex for the accomplishment of some great feat. Hills seldom attempted in any car were climbed by Essex in high gear. Remarkable economy proofs were established. New acceleration marks were made. Inter-city records for automobiles and for crack trains were lowered. Even many of the famous records set by the previous Essex Challenger were shattered.

Most important of all—Challenger Week convinced motorists everywhere that Essex represents the greatest dollar for dollar value in car satisfaction that the industry offers. They are talking about it everywhere—about its beauty—its comfort—its brilliant performance and economy. They are convincing others. They are sending others to ride. They are making YOU want to ride before you buy any car. We will gladly give you a personal demonstration of any of these proofs which Essex has established.

RECORD ENTRY DRAWS CROWD TO DOG SHOW

Fine Animals on View in Victoria Kennel Club's Parlor Exhibition Saturday

With one of the heaviest entries of the season, the Victoria Kennel Club drew over 300 people to its exhibition in Harmony Hall Saturday evening. The visitors examined the different animals in the show and commented favorably on the various classes on view.

Outstanding in the season's show was the judging Saturday of a Griffon of Dead Man's Island, who showed fine knowledge of dogs in placing the awards in the different classes. Pekinese were the most popular animals in the show, fourteen animals being entered in this section. Next to them came Scottish terriers, a breed that has proved of great interest in all shows during the season. Alsatians and Pomeranians were also entered in considerable numbers and were inspected with great interest by the audience who attended the function.

From every point of view the show was declared a success by the committee in charge of the event.

Results of the different contests follow:

POMERANIANS

Open puppy dogs—Mr. Bradley's Mischief Bille Boy.

Open dogs—Mrs. Troby's Saucy Mocha Junior puppy bitches—Mrs. Harrison's Betty.

Senior puppy bitches—Mrs. Bradley's Mischief Bille Boy.

PEKINGESE

Junior puppy dogs—E. Michaux's Pekin.

Senior puppy dogs—1. L. McKay's Shanghai II; 2. T. M. Camrose Chen Yui.

Open dogs—1. Mrs. A. H. Moore's Glenhor Sheik; 2. Mrs. Dunnett's Chang; 3. L. McKay's Shanghai II.

Junior puppy bitches—Mrs. Castle's Shantung Yendi.

Senior puppy bitches—1 and 2. Mrs. Castle's Shantung Baby and Ying Foo.

Open bitches—1. Holmes's Kan Tai Klor; 2. Grier's Sally; 3. Mrs. Castle's Shantung Yendi.

SCOTTISH TERRIERS

Junior puppy dogs—1. Green Dods-worth's Craigie Chieftain; 2. Mrs. Drummond-Davis's Jock II.

FOOD TAX REFERENDUM

Norwich, March 10.—The claim that he suggested to Rt. Hon. Stanley Bald-win, Conservative leader, a plan to submit a referendum on a foreign food-stuffs tax to the electorate was made Saturday by Lord Beaverbrook, who addressed a crowded meeting of farmers here. Lord Beaverbrook said a referendum would be the means of reaching the ideal of Empire free trade more quickly than by any other route.

MORE MEMBERS JOIN FISHING ORGANIZATION

Fishermen's Association Grows After Canneries Purchased to Run Co-operatively

Since the B.C. Fishermen's co-operative Association completed its plans to purchase part of the cannery interests of Francis Miller, more than 100 members have joined the organization, according to word received here today from Vancouver.

An exact count has not been made by the secretary of the co-operative, but the total membership has grown from somewhat under 600 to a figure approaching 700. New members have bought an average of one and one fourth shares each.

Plans for the co-operative entry into the fish-canning business with the operation of a cannery at port Alberni and another at coal harbor, Vancouver, are proceeding rapidly, it is stated. A third one at Alert Bay has been purchased but will not be in operation until machinery is purchased.

PRAIRIE TOWN HAS LOSS OF \$100,000 BY FIRE

Several Buildings in Rocky-ford, Alberta, Destroyed This Morning

Calgary, March 10.—Fire of unknown origin which broke out at 3 a.m. to-day in the National Cafe in the town of Rockyford, spread rapidly through the entire business block on the west side of Main Street, causing damage estimated at \$100,000.

Sparks reached the roof of the Alberta Pool elevator, and when discovered the elevator was so filled with smoke the firefighters could not reach the flames. The elevator and annex, containing about 30,000 bushels of wheat, became total losses.

Business places destroyed were the National Cafe, in which the fire started; the Rockyford Pharmacy; the Rockyford Meat Market; the Rockyford Trading Company's general store; the Maple Leaf confectionery and jewelry, a cafe and two vacant stores.

The flames spread rapidly from the cafe to adjoining buildings, and within two hours the entire block was in ruins.

BIG NEW PLANE PLANS IN U.S.

Seattle, March 10.—Seattle will be one of three Pacific Coast terminals of a newly-organized \$100,000,000 transcontinental airline express service, according to a dispatch from Los Angeles.

Known as the United States Aerial Express Lines Limited, the company is sponsored by the Aircraft Finance Corporation of America, and is expected to be in operation within a year. It will carry perishable and valuable commodities, where speedy transportation is essential.

The two other Pacific Coast terminals will be San Francisco and Los Angeles. Along the Atlantic Coast terminals will be established in New York, Boston and Florida.

There will be service from New York to Florida, and from Los Angeles to Seattle. Three north and south feed lines connecting the two routes also will be established. The points have not as yet been selected.

PORT ALBERNI EASTERN STAR HOLDS PARTY

Special to The Times.

Port Alberni, March 10.—Members of Morgan Chapter O.E.S. were bridge hosts at St. Alban's Hall on Friday evening, with J. C. Johnston, worthy patron in charge. The guests included, Dr. C. E. Pinedo, Mr. and Mrs. H. Carter, Mrs. E. Frost, Mrs. J. Rust, Mr. and Mrs. W. Henderson, Mr. and Mrs. Fred Weaver, Mrs. F. A. Sawyer, Mrs. M. Davidson, Mrs. G. A. Bellamy, Mrs. E. Robinson, Mrs. G. Smith, Mrs. G. Gordon Campbell, Mrs. H. P. Kye, Dr. R. Wilson, Mrs. Duncan, Dr. A. R. Kelly, Mrs. C. R. Martin, Mrs. Fred Wilson, Mrs. J. B. Wood, Mrs. A. Hel-don, Mr. Edward Holmes, Mr. W. J. Pettie, Mr. A. Hanna, Mr. J. Griffith, Mr. and Mrs. A. McDonald, and others.

Late C. Styles Buried To-day

Special to The Times.

Nanaimo, March 10.—Charles Styles, forty-seven, died on Saturday in the Nanaimo Hospital. He was a native of Sheffield, England, and had resided here a number of years. He is survived by his widow, three sons, Thomas, Sidney and Charles, and two daughters, Florence, Jessie and Alice, all at home. The funeral took place at 2 o'clock this afternoon, Rev. F. W. Anderson officiating.

Low Silver to Force Keeley to Shut Down

Toronto, March 10.—While nothing official has yet been given out, it is understood that Keeley will find it necessary to close down in the face of silver at 40 cents, a statement to Miller, Court and Company says.

The nearest port in Europe to New York City is Vigo, Spain.

BIG ROAD PLANS IN SASKATCHEWAN

Regina, March 10.—An expenditure of \$10,000,000 on highway construction and maintenance in Saskatchewan during 1930 is to be provided for in the budget Hon. A. Macdonald, Minister of Highways, will present to the Legislature shortly. It is probable an increase in the gasoline tax from three to five cents a gallon will be recommended by Mr. Stewart.

SOUTH AFRICA MINE ACCIDENT CAUSES DEATHS

One White Man and Twenty-eight Natives Killed When Cave Falls

Johannesburg, Union of South Africa, March 10.—One European and twenty-eight natives were killed and two Europeans and six natives injured to-day in an accident in an underground shaft of the Crown Mines.

A cage containing twenty-eight native miners broke away and crashed to the bottom of the shaft, a distance of about 1,600 feet. All the natives were killed and another cage working in conjunction with the run-away was badly damaged by the other cage. Its doors were torn open, and one of three European miners inside the cage and a runner 1,000 feet to the bottom of the shaft. The rope which injured two other Europeans and six natives in the same cage.

ROBBERS VISIT SEVEN HOMES IN VANCOUVER

Vancouver, March 10.—With 100 successful burglaries already to their credit since January 1, burglars who have been operating in the Kitsilano and Point Grey districts, added to their list Saturday evening by looting seven homes in the Kerrisdale and Dunbar sections of Point Grey.

The burglars believed responsible for these robberies made their first appearance in the Kitsilano and Point Grey districts in December and have defied all efforts to apprehend them. They operate almost entirely in the territory bounded by False Creek, Marine Drive and Granville Street.

In practically all cases they obtained entry to houses or suites by means of pass keys or by breaking the glass out of a door or window. Their loot included clothing, jewelry, cash and stock certificates. In one case a brass safe was stolen from a residence, and in others they stripped automobiles of tires, rims and other accessories.

TRAIL OF SOVIET IS UNCOVERED IN NEW YORK

New York, March 10.—The New York Times says Police Commissioner Whelan has told heads of some of New York's largest corporations that Communist organizers are boring from within their organizations.

The paper says Whelan believes Communists are working as department heads in some instances and that they have gained a foothold in the city government as well. The commissioner has invited the corporation heads to confer with him this week.

"We find this movement is directed from Russia," the commissioner is quoted as saying. "We have found the question of unemployment is only a racket they have adopted to get public attention. The ringleaders are not interested in unemployment. They are interested in setting up the Soviet system and overthrowing our government."

CHATHAM, ONT. SCENE OF TUSSE WITH RAILWAY

Canadian Press.

Chatham, Ont., March 10.—Difficulties between the Chatham, Wallaceburg and Lake Erie Railway Company and the city of Chatham over franchise rights reached a climax Saturday when workmen were ordered by the corporation to tear up sections of the rails to prevent the company operating its locomotives on the city's streets. The action was taken on receipt of reports that the company was contemplating operation of an electric train.

White Rock to Go In With Canada Dry

Vancouver, March 10.—Merger between Canada Dry Glycer Aie and White Rock was reported advanced a step to-day, with Canada Dry offering to exchange its stock for White Rock common on a basis most favorable to White Rock. The previously reported offer of one Canada Dry for 1 1/2 of White Rock.

Mavis Bottling stockholders are meeting on March 17 to approve the merger with Nuprage Company of America.

MacDonald Tells Radio Listeners Naval Parley Will Produce Agreement

British Prime Minister's Words of Confidence Heard in Canada and United States

Canadian Press.

New York, March 10.—Broadcasting from his country home at Chequers, England, Premier Ramsay MacDonald yesterday said the Five-power Naval Limitation Conference at London was on the road to negotiation of its difficulties. He said he believed it "would set the face of the world toward the dawning day of universal peace."

In an address broadcast in the United States and Canada by the Columbia Broadcasting System, MacDonald told his listeners he did not entertain the thought of failure.

"All is well," he said. "We have been delayed three weeks, but we have used the time well in clearing up differences between delegations. Mr. Briand and his fellow delegates returned Thursday evening and were hard at work Friday morning. Conferences are continuing over the weekend. The thought of failure is not entertained at St. James's Palace. Our American friends may be of as good hope and heart as we are. We will not give up until human ingenuity and patience are exhausted and that is a long way off yet."

"Those pessimistic friends of ours who find so much to grieve in deep mourning told you just would hear little more of us. They do not know us. We have worked hard, but not nearly so hard as we should have done had there been any serious chance of the conference failing."

He declared the conference had passed the first stage, wherein the delegates had learned to understand one another. The second stage, he said, was discussion of actual programmes.

"Of course," he went on, "when we reach the inevitable point where programmes have to be discussed, we are on dangerous ground. The programme is the task of our beliefs in peace. When trying to adjust programmes, conference after conference has failed, but there is no way around them. We must cut our way through them."

FIVE-POWER TREATY

He said the technical experts would "never get us over and through that ground, but in London the last word rests with civilians and everyone of us is determined to get an agreement on an agreement not with two or three of us—but an agreement between the whole five of us."

In conclusion the Prime Minister said:

"The agreement will carry us on until 1936 and then the troublesome things which we are now facing will have been settled and whoever will be in our places will have an open road to proceed toward the cherished goal of nations."

"It may not be our happy lot as far as some of us would like at this conference. Confidence in peace and in justice is still a tender plant. We have to get our inheritance of militarism, rivalry and national distrust and fear well behind us, and if we do that, as I believe we are doing, we can, when we put our names to the agreement, lift up our hearts in thankfulness that at the very least we have been able to set the face of the world toward the dawning day of universal peace. Good-bye, good-bye."

PLANE STRIKES PLANE AS IT LANDS ON FIELD

Vancouver Machines to Be Repaired; Pilots Escape Injury

Vancouver, March 10.—Two B.C. Aero Club planes were partially wrecked about 3:30 p.m. Sunday, when an Eaglehawk piloted by S. M. McGregor, student flyer, crashed into a Moth plane aboard which was S. Ballard, instructor.

Ballard, aboard the Moth, had just landed and was taking slowly down the field when his plane was struck by the Eaglehawk as McGregor was bringing it down on the runway. By the impact of the collision the right wing was torn from the Moth plane, which escaped further damage.

Neither pilot was injured, although the Eaglehawk, after striking the Moth, swung sharply away and turned over, damaging the landing gear and radiator.

Eye-witnesses stated McGregor, in flattening out his plane preparatory to landing, failed to see the Moth as it slowly approached on the ground. The low speed of the Moth and the muddy nature of the runway prevented Ballard from manoeuvring out of the path of the oncoming Eaglehawk.

Mr. Ballard expressed the opinion it would take about two weeks to condition the planes for service again.

ONE INJURED WHEN CALGARY PLANES MEET

Calgary, March 10.—The steel propeller of a Curtis-Robin plane bit into a Moth owned by the Calgary Light Aeroplane Club at 4 o'clock yesterday afternoon in a collision at the local airport. G. W. Smith, 2129 Macleod Trail, who was piloting the lighter craft, was removed to a hospital suffering from a fracture of one arm, shock and minor bruises.

The accident occurred while Harold Turner was making a landing with his Curtis plane and the two ships met near the hangar. Both planes were on the ground and in motion at the time. The steel blades of the heavier machine tore the light Moth to shreds. Smith luckily rolled to safety.

A bent propeller and a broken strut were the damages suffered by the Curtis. The pilots were not injured.

Bank of England Sells Gold Bars

London, March 10.—The Bank of England to-day sold \$3,400 in gold bars and exports £2,000.

Bar silver 10 3-16d per ounce. Bar gold 84c. 11 1/4c. Money 2 1/2 per cent. Discount rate short bills 3 1/2 per cent. Three months bills 5 1/2 per cent.

Premier States Prairie School Bill to Be Passed

Toronto, March 10.—"Bacterianism is absolutely dead as far as the public schools of Saskatchewan are concerned," Premier J. T. N. Anderson of Saskatchewan said in an interview here.

Premier Anderson emphatically denied reports that the present bill before the Legislature, to exclude sectarianism from the Saskatchewan public schools, would be withdrawn.

"I wish it to be distinctly known that I am not anti-French nor am I anti-Catholic, but I am intensely anti-sectarianism in our public schools," he explained.

The Premier was returning to the prairies from Ottawa, where along with four Cabinet colleagues he conferred with the Federal government on the return of the natural resources to his province, and he declared he was satisfied with the agreement that had been reached.

Premier Anderson visited Toronto to see his brother, H. S. Anderson. He is being accompanied back to Saskatchewan by his father.

SIX AUTOISTS ARE KILLED BY TRAIN

Lancaster, Pa., March 10.—Six persons were killed yesterday evening when a Pennsylvania Railroad passenger train struck their automobiles at a grade crossing in Florin, about ten miles west of here. All of the victims were from this city.

TOO LATE

HON. R. L. MAITLAND, K.C., IS TOO good a lawyer to fail to realize the weakness of his alibi for the government in regard to its financial policy and its record on party patronage. The argument that the increased expenditure and taxation are attributable to the late government, which went out of office nearly two years ago, would not be swallowed by the greenest jury that ever was empaneled.

The present government's budget last session was \$25,000,000; the Minister of Finance claims a surplus for the present year; it is now proposed to spend \$28,000,000 next year and to increase taxation in order to raise the additional revenue that will be required. What has all this—particularly next year's programme of millions of fresh expenditure and new taxation—to do with the government which retired from office in August, 1928? The late lamented Houdini himself could not work that trick on a credulous public, and Mr. Maitland is a long way out of Houdini's class. That alibi is a year too late.

Even more attenuated was Mr. Maitland's explanation of the government's attitude to party patronage. His plea that his party only pledged itself to abolish "vicious patronage" must have startled even his own colleagues, especially the Premier, whose various references to this subject in the campaign of 1928 were clear and unmistakable. For Mr. Maitland's information, we quote some of them as reported by The Colonist, one of the principal journalistic supporters of the present government, and an enthusiastic admirer of the leader of the government.

On its front page on June 23, 1928, The Colonist thus reports Dr. Tolmie as saying at Prince Rupert at a public meeting on June 22:

Not only did Hon. Dr. Tolmie outline the policies that he would seek to initiate if chosen next month as Premier of British Columbia, and which he had already enunciated, but he came out definitely, without hesitation or evasion, as favoring total exclusion of Orientals. He also took pains to lay at rest rumors that had been put in circulation to the effect that the Conservatives were elected, they would at once commence discharging civil servants. This rumor, he declared, was shameless and baseless. He declared that no civil servant who was efficiently filling a position would have the slightest reason to fear that his position would be disturbed if he was called upon to head a government.

On Page 2, June 30, 1928, The Colonist reported Dr. Tolmie as saying at Revelstoke:

In repeating the declaration that he abhorred the idea of political patronage in the employment of workers on government undertakings, and that under his administration the political views of an efficient civil servant would not affect his position, he exclaimed with an emphasis and vigor that brought the meeting to its feet in wild applause: "There is no one I am more determined to give fair play to than the poor fellow that can't help himself."

On Page 2, July 12, 1928, The Colonist reports the Premier as saying at a meeting in Vancouver, at which Mr. Maitland was present:

"I do not want this to become a cheap man's country," he told an immense audience in the auditorium, and amid thunderous applause went on: "It has been said that we would slash the salaries of civil servants. Such a story is a baseless and absurd rumor." All he desired and would insist on is efficiency, and, knowing the character of the vast majority of government employees, he knew that they only wanted to give good, honest service, and be freed from the continued menace of a system of political patronage that constantly threatened the continuity of their employment.

On Page 6, July 18, 1928, The Colonist thus reports Dr. Tolmie as saying at a meeting in the Coliseum Theatre:

The speaker briefly outlined the policy as to taxing mines only on the net profit. The policy of building and improving of roads he agreed in, but it would not be tolerated for a moment that any man would suffer the humiliation of lying about his political beliefs before he got a job. Neither was it intended to meddle with the civil service—efficiency and fidelity would be the only prerequisites.

On July 11, 1928, Mr. Beatty is reported by The Colonist as giving the following assurances for Dr. Tolmie:

Dr. Tolmie had promised that the civil service would have fair play and honest treatment, so that there would be an incentive to work faithfully and loyally; there would not be any practice of putting an outside political hack over the heads of men who had worked and spent the best years of their lives in the service of the public, and had looked forward, vainly, for the promotion and reward for faithful service.

An advertisement in The Colonist of July 11, 1928, has the following over the signature of Mr. Twigg:

Because the Conservative Party under Dr. Tolmie will maintain the administration of our laws freed from political taint.

H. DESPARD TWIGG.

There is nothing "vicious" in any of these pledges. Finally, this is what Mr. Maitland said on July 7, 1928, according to The Colonist of July 8, 1928:

"Is there a living man who does not think we can save money by a businesslike administration of our Public Works Department? That by cutting away from the vicious patronage rings and strings of every kind, economy can be introduced into every government purchasing department?"

We note Mr. Maitland's reference to "vicious patronage rings," but we also invite his attention to the phrase, "strings of every kind," which accompanied it.

The Good Book tells us that it is easier for a camel to pass through the eye of a needle than for a rich man to enter the Kingdom of Heaven. It would be easier for three big-bellied camels to march abreast through the eye of a needle than for the government to slip through the hole Mr. Maitland made for it in his reference to patronage.

THEY DISLIKE FACTS

IN A GENERAL STATEMENT WHICH it does not try to explain, the morning paper says the fiscal policy of the King government is the chief reason for this winter's unemployment, and that it has failed to attract immigrants of the right sort.

While there has been less work in Canada this winter, it also is true that more workers have been employed than in the corresponding period of last year. The fiscal policies of the King government, of course, have had nothing whatever to do with labor conditions which have obtained during the last few months, except that if its policies had been patterned according to the high tariff schemes of the opposition, not as much work would have been available. More workers were out of jobs this winter because of the short crop, while the industrial life of the country naturally suffered to a considerable extent through the stock exchange crash.

The plain inference of opposition criticism is that if Canada had as high a tariff as the United States, all our economic troubles would disappear and there would be nothing to worry about. Unemployment conditions in the neighboring republic indicate conclusively that this kind of argument is all nonsense. According to Mr. James J. Davis, United States Secretary of Labor, there are more than 3,000,000 unemployed persons in that country now. This total is based upon official returns and takes no account of unreported conditions. On the basis of population, therefore, the unemployment situation across the border would appear to be much more serious than ours—the high tariff wall notwithstanding.

As to the charge with respect to the King government's immigration policy, we presume the morning paper is not satisfied with the number of newcomers from Great Britain. Yet official statistics for the time months ending with last December show that 58,846 British people came to Canada during that period, or 7,931 more than in the corresponding period of the previous year, while the balance was distributed as follows: From the United States, 26,165; northwestern Europe, 25,018; and from thirty-three other lands, 31,355. In the same nine months, moreover, 24,636 Canadians who had gone to reside permanently in the United States returned to this country to remain here.

It does not suit critics of the King government to consider facts. They content themselves, like the leader of the opposition, with generalities which nearly always are wide of the mark.

THE OLD SELFISH CRY

ONE OF THE CONSERVATIVE MEM-bers of the House of Commons wants the government to abrogate the order-in-council extending the provisions of the Australian trade treaty to New Zealand, and to enter into negotiations for a fresh arrangement with the smaller of the two southern Dominions.

Mr. Dunning very properly asked the House if it was a good preliminary to the negotiation of a treaty to pass a resolution to rescind forthwith the existing trade relationship between this country and New Zealand. He further suggested to the House that this Dominion would like to approach the forthcoming Imperial Economic Conference "with our sister Dominions without having hit one of them over the head."

Negotiations already are under way for a new treaty with New Zealand; but Mr. Bennett and his party, of course, continue to go out of their way to find something nasty to say about our trading arrangements with that Dominion and with Australia. They are not in the least influenced by the fact that out of a total trade between Canada and those two countries in the last two years of \$102,695,167, the balance in Canada's favor was no less than \$38,914,509.

The attitude of the opposition party to the present trading arrangements with the southern Dominions would be less difficult to understand if the exchange were of a more even nature; but it is so one-sided in our favor that it would not be surprising if both countries were to apply to us for much better terms than they at present are enjoying. The Conservative point of view, incidentally, emphasizes the party's hostility to inter-empire trade.

WHAT OTHER PAPERS SAY

THE SCHOOL QUESTION IN SASKATCHEWAN

The Quebec Soleil

Mr. Anderson and his lieutenants will shortly be discussing the grave problem of the schools in their province. After having been in open attack at the time of the elections, on the language and influence of the French-Canadians, they should now try and show a little sense and fair play. If they reflected for a while in a patriotic spirit they would inevitably hesitate to carry out their original plan. A sign of repentance and generosity on their part would be greatly appreciated by the whole nation.

THE FRENCH VIEW IN SASKATCHEWAN

The Prince Albert Patriot

The session is opened. Mr. Anderson is in power with a feeble majority. Will he stay there? It seems very doubtful, for without delay, to make quite sure, he has introduced his cherished bill in the Assembly and wants to pass it immediately. If conservation perishes, there will be at any rate no Anderson left. This is what Mr. Anderson thinks, no doubt; and no doubt also he is studying before the glass the ruthless look which his face will assume when having given the final blow with his club to the little Catholic children and their devoted religious teachers, he will glance at Mr. Gardiner with triumph and revengeful satisfaction.

THE PRICE OF WHEAT

Le Canada

The members of the Association of British Millers are perfectly ready to buy more Canadian wheat, but only on condition that the price of our grain is no higher than that of our competitors. This statement was made by the delegates of the Wheat Pool to London journalists prior to their departure from London, on their way back to Canada. This amounts to saying that when the price is the same the preference will be given to Canadian wheat. It would be strange if this were not so, for British millers are men of business and are forced to give the best flour at the best price. If they can buy their wheat from another country at a better figure than they can from us, they will naturally do so, and nobody will be able to blame them.

A THOUGHT

Again, when the wicked man turneth away from his wickedness, that he hath committed, and doeth that which is lawful and right, he shall save his soul alive.—Ezekiel xviii 27.

Our greatest glory consists not in never falling, but in rising every time we fall.—Goldsmith.

Across the Bay

We start the seventh week with a rambling explanation for the six weeks have gone before and which seem so unnecessary to the outside electorates, we find ourselves on the eve of an awakening and a return to our homes.

By H. B. W.

WE OPENED our seventh week across James Bay to-day. Six weeks have come and gone, and the Legislature, like the brook, seems quite capable of going on forever. In the six weeks now ended probably enough an ordinary business firm two days. Realizing this mournful fact, it is the habit of the electorate to wonder, about this time in the session, just how the House can waste so much time and continue to pursue such a programme of masterful inactivity. The wonderment is not confined to this electorate. The House share it fully, and when honorable members get up in the morning and look at themselves in the mirror they ask themselves fiercely what they mean by it.

UNHAPPILY, while there is not a member of this House who is not eager to speed up the session and get home, there is a host of anything like that occurring. Individually the members could do all the business that remains to be done before Tuesday night. Together they probably will need two more weeks at least, and even in that time there will have to be an air of reckless rushing towards the end. It is the system, or rather the difficulty which all men find in working together, that holds us up.

IT IS all very simple and understandable when you are close to it, although the outside electorate is usually in a state of amazement and dismay as the session drags on. In the first place, it takes the House a month to settle down and clarify its ideas on the issues of the session. By this time, of course, there is not a member who doesn't know exactly how he will vote on every major issue yet to be decided. This point of decision could not have been reached much earlier, for until very recently the average member didn't know definitely how he felt about many things. Now, as a result of six weeks' talk to his desk fellows, constant mail from his constituents and much light and guidance from the cabinet, he has made up his mind.

YOU MIGHT think that this was enough to bring the session to the sticking point. No, there are other considerations. There are the considerations of human nature, which prevail even across James Bay. In a business sense, as we have said, the remaining work of the session could be done before 6 p.m. Tuesday, because "two or three men together in a room would say what they had to say, argue with one another for a while, go and do certain things, and no one outside their immediate associates would know anything about it."

WITH FORTY-EIGHT men, in the full blaze of daily publicity, it is not half so easy. You can understand precisely the difference when you watch the members in committees in the morning and then in the House in the afternoon. In the mornings, particularly if no newspaper correspondents happen to be present, the average committee steams along at a tremendous rate. Everyone is nice and agreeable. Everybody calls everybody else by his first name. Except in the public accounts committee, which has a peculiar political complexion of its own, there are no lofty appeals to the electorate, no calling down the wrath of the gods, no pointing-with-pride or viewings-with-alarm. And if anyone becomes annoyed, the rest of the members usually laugh him into a good humor again.

IN THE HOUSE, under our system of government, such things, alas, cannot be. In a committee, when a man of one party makes an unkind remark about the other party usually no one bothers about it, for if seldom does the committee members. In the House everything must be answered—not a single word of reproach must go unchallenged. On the outside this seems entirely unnecessary. Business sense tells us that if they followed the same rule they would never have time for any business, but would be occupying their whole day answering the complaints of their competitors. If you will place yourself in the position of a government and an opposition, however, you will understand why this endless argument back and forth can hardly be avoided.

IF YOU were a cabinet minister, for instance, and the opposition happened to remark casually that on such and such a day, speaking to half a dozen farmers at Blue River, up in the wilds of the North Thompson, you said that you were going to reduce taxes immediately if you were a cabinet minister, and the opposition refused to explain it. Thereupon, if you were like other cabinet ministers, you would say that you did not tell the farmers of Blue River that you would reduce taxes; what you said was that if the former government hadn't wasted the country's money in scandalous fashion you would have been able to reduce taxes. You would probably add that ten years ago, speaking to some loggers near Courtenay, a member of the former government whom you would not name, had promised to abolish the income tax while suppressing the huge deficits of the Province.

THEREUPON, of course, the former cabinet minister, if he were in the House, or one of his associates if he were not, would adjourn the debate, consult his friends, look up the newspaper files of the day, and, three days

KIRK'S Sootless COAL

KIRK COAL CO. LTD.

1224 Broad Street Phone 135

inter, proceed to answer you. He would probably find that in the speech to the loggers at Courtenay he had not promised to abolish the income tax at all, but had merely accused the minister of proposing that of imposing the income tax to cover its grossly extravagant expenditures. And probably he would throw in for good measure some indignant and unfortunate speech which you had made in a fit of enthusiasm to a nominating convention down near Greenwood, and in which you had promised the debt would never go up any more. Probably, also, your opponent would point to the enormous increase in the debt since you took office and ask what about it.

WELL, of course, that would have to be explained, and so you would get one of your colleagues to adjourn the debate in order to prove later that while you may have raised the debt a little, the other fellows did it much more and had nothing to show for it. Then the opposition would start to analyze the debt and so on and so on, back and forth, round and round, from taxes to debt, to sinking funds, to the history of the P.G.E., the problems of soldiers' settlements and goodness knows what else, for no party wants to stop so long as the other party has said anything which can or should be answered.

A CUMBERSOME process, you will agree, but precisely the process which you would employ if you were in the House. Unless you were a man of iron, or unless you didn't intend to run at the next election, you would be forced to employ it. You would know that the other fellows were libeling you, and the other fellows would know that you were libeling them. And, with all the country watching you and all your friends depending on you to show your mettle, you would become so interested in the controversy that you would awake one morning to find the session six weeks old and little business done. That is precisely the position of the House to-day. Happily, there are signs of a resawing now, for with the birds budding and the birds singing and the grass turning green, the thoughts of the House are turning towards home.

The Weather

Daily Bulletin Furnished
by the Victoria Meteorological Department

Victoria, March 10—5 a.m.—The barometer falling low on the coast and heavy rains have occurred and mild weather extends eastward to the prairies.

Reports

Victoria—Barometer, 30.41; temperature, maximum yesterday, 45; minimum, 42; wind, S.W. rain, 55; weather, raining.
Vancouver—Barometer, 30.40; temperature, maximum yesterday, 46; minimum, 40; wind, 4 miles E.; rain, 44; weather, raining.
Prince Rupert—Barometer, 29.92; temperature, maximum yesterday, 40; minimum, 22; wind, 4 miles S.W.; rain, 2.64; weather, raining.
Eatonville—Barometer, 30.30; temperature, maximum yesterday, 45; minimum, 40; wind, 4 miles E.E.; rain, 53; weather, raining.
Tolook—Barometer, 30.38; temperature, maximum yesterday, 46; minimum, 42; wind, 3 miles E.E.; rain, 31; weather, cloudy.
Portland, Ore.—Barometer, 30.44; temperature, maximum yesterday, 43; minimum, 4 miles N.W.; weather, clear.

Seattle—Barometer, 30.42; temperature, maximum yesterday, 50; minimum, 42; wind, 4 miles E.E.; rain, 31; weather, cloudy.
San Francisco—Barometer, 30.18; temperature, maximum yesterday, 50; minimum, 50; wind, 4 miles S.; weather, clear.

TWENTY-FIVE YEARS AGO TO-DAY

THE VICTORIA DAILY TIMES, MARCH 10, 1905

That Victoria has of late been immune from all classes of beggars who have in the past taken up positions on the streets with crutches, or arms missing, or with accordion in hand pouring forth a feeble music to attract the sympathetic side of nature, is not because the city has been overworked in this line of business—not at all. It is because the immigration laws applying to all classes of paupers are being strictly enforced. All steamers bringing passengers from foreign ports are met and for passengers of the class mentioned return transportation is promptly arranged.

Weather forecast—Victoria and vicinity, light to moderate winds, continued fair and warm to-day, becoming unsettled on Saturday.
Creator and his superb band held a large audience spellbound at the Victoria Theatre last evening and when that feast of melody was over the common expression was that of regret that the programme was not double its length.

At last evening's meeting of the Victoria Board of Trade two matters of great importance to the commercial welfare of Victoria were considered, namely the possibility of securing connection with one or more transcontinental railways, and the advisability of abolishing the present compulsory pilotage system, making this a free port.

Yesterday evening the C.P.R. steamer Princess May arrived from Skagway, completing her first trip of the season. The ship left Skagway at 6 o'clock on Monday evening, and on her way south called at the terminus City to land a number of passengers.

Questions Being Asked In The British Columbia Legislature

Mr. Pattullo asked the Minister of Public Works:

1. Was work done on Mill Bay Ferry approaches during 1929?
2. By whom was work done, and on what basis?
3. What was estimated cost of work?
4. What was actual cost?
5. Were tenders called for?
6. If not, why not?

MR. HAROLD F. RITCHIE

Pompeian Company Bought by Well Known Group

Group headed by Harold F. Ritchie and F. M. Shoemaker purchases the famous Pompeian line from Colgate-Palmolive-Peet Company.

Definite announcement has been made that the Pompeian Company has been purchased from the Colgate-Palmolive-Peet Company by a group of individuals well known to the Department Store and Toilet Goods Trade, consisting of: Mr. Harold F. Ritchie of New York and Toronto, Canada; president of Harold F. Ritchie and Company Inc., New York; Harold F. Ritchie & Co. Ltd., Toronto, Canada; and the British Harold F. Ritchie & Co. Ltd. of London, England; Toronto, Canada; Sydney, Australia, and Wellington, New Zealand, and also president of International Proprietaries Ltd., owner of Eno's Fruit Salt and Thermogene, and Messrs. F. M. Shoemaker, Guy S. Shoemaker, Clayton S. Shoemaker and M. Holmes Shoemaker of Elmira, New York, (executives of the Prostilla Company).

Negotiations have been going on steadily for the last several months, and the new owners took over the management of the company on March 1, 1930. The plans are now completed and the development of the Pompeian business on a greatly enlarged scale will be the immediate aim. Further announcements will shortly be made concerning the new moves and increased selling and advertising programme.

HISTORY OF THE POMPEIAN COMPANY

The Pompeian Company was originally a Cleveland Company, headed by Mr. Stecher, Mr. Otto F. Leopold and Mr. W. W. Wheeler. Operations were carried on from Cleveland for a great many years, and the Pompeian Company became one of the largest in the Toilet Goods Field, with an outstanding reputation and an enviable following. The original item on which the business received its great impetus was the famous Pompeian Massage Cream. This item developed to a point where it dominated the entire field of Massage Creams—and even to-day is considered to be alone in its class. Pompeian Massage Cream spread to every corner of the world—and carried with it the other Pompeian toiletries, among which are the Pompeian Beauty Powder—Pompeian Bloom (a metal box rouge)—Pompeian Day Cream and Pompeian Night Cream.

Early in 1927, the Pompeian business was purchased by Colgate & Company, and the factory moved to Jersey City. Later, after the merger of Colgate and Palmolive-Peet, this concern was approached—and negotiations started which finally were consummated in the sale of the Pompeian Company to the mentioned group.

The line is well known to Mr. Harold F. Ritchie, as the Harold F. Ritchie and Company in Canada acted as sales agents for Pompeian Products in Canada and several countries in the foreign field until the time that Colgate and Company purchased it.

MOST MODERN PRODUCTION AND SELLING FACILITIES TO BE EMPLOYED

The Shoemaker family have enjoyed their reputation as expert manufacturers over a period of fifty years. They have every facility to produce the highest quality merchandise in their factories and laboratories in Elmira, N.Y., and Toronto, Canada, where Pompeian Products will hereafter be made.

The sales of Pompeian Products in all countries will be handled by the Ritchie Organization.

The offices of the Pompeian Company in the future will be at New York, N.Y. (Madison Avenue and 34th Street), Elmira, N.Y., and Toronto, Canada. There will be branch offices in Paris, London, Berlin, Sydney, Australia; Wellington, N.Z.; Shanghai, China; Tokyo, Japan, and Capetown, Africa.

The Officers of the new Company are as follows:
Chairman of the Board—F. M. Shoemaker.
President—Harold F. Ritchie.
Vice-president and Treasurer—James H. Anderson.
Executive Vice-president—C. S. Shoemaker.
Secretary and Asst. Treasurer—Guy S. Shoemaker.
Controller—Chas. M. Henning.
Directors—Hans Schmidt Jr., Edward H. Letchworth, Herbert H. Klein, H. Holmes Shoemaker will be Production Manager.

Mr. Loughheed replied as follows:

1. Yes; on a new landing, etc., at Village Point.
2. Day labor.
3. Trestle bridge, \$2,300; ferry landing, \$22,000.
4. Work not yet completed.
5. No.
6. See answer to No. 2.

Mr. Manson asked the Attorney-General:

On what date did the present Government Agent at Prince Rupert first hold a coroner's inquest within the city of Prince Rupert?

Mr. Pooley replied as follows:

Inquest, September 16, 1929.

Mr. Kennedy asked the Provincial Secretary:

1. How many tons of coal were purchased for Tranquille Sanatorium for the fiscal year 1929-30?
2. What kind of coal was purchased?
3. Was the coal purchased from the mine direct or from an agent?
4. If purchased from an agent, what is the name and address of such agent?
5. What was the price per ton delivered f.o.b. Tranquille?
6. How many tons of coal were purchased for Tranquille Sanatorium for the fiscal year 1929-30?
7. What kind of coal was purchased?
8. Was the coal purchased from the mine direct or from an agent?
9. If purchased from an agent, what is the name and address of such agent?
10. What was the price per ton delivered f.o.b. Tranquille?
11. What was the total saving (if any) as between the purchases of 1928-29 and 1929-30?
12. How was such saving (if any) effected? Give particulars.

Mr. Howe replied:

1. 4,250 tons.
2. Nanaimo-Wellington.
3. From agent.
4. J. Kinman Coal and Dock Company, Victoria.
5. 4,000 tons at \$9; 250 tons at \$10.60.
6. 4,750 tons.
7. Wellington-Comox.
8. Direct from mine.
9. Answered by No. 8.
10. 4,750 tons at \$8.75; 250 tons at \$10.18.
11. \$1,292.
12. By buying direct from mine instead of through agent.

Mr. Pattullo asked the Minister of Public Works:

1. Was a bridge built over Skookum Gulch between Tugwell and Coal Creek on Jordan River Road during 1929?
2. If so, by whom was bridge built, and on what basis?
3. What was estimated cost of said bridge?
4. What was actual cost of said bridge?
5. Were tenders called for bridge?
6. If not, why not?

Mr. Loughheed replied:

1. Yes.
2. Day labor.
3. \$10,600.
4. 11,202 on work based on above estimate, additional work involving increased length of bridge, longer piling, etc., \$1,946.
5. No.
6. See answer to No. 2.

Mr. MacPherson asked the Minister of Public Works:

1. Has the Department built a bridge over the Salmon River, in Salmon Arm district, since August 30, 1928?
2. If so, what was cost of said bridge?
3. If so, from whom did the Department purchase bridge-timbers and piling for said bridge?

Mr. Loughheed replied:

1. Yes.
2. \$2,311.53.
3. L. E. Stearns, piling, caps, and stringers, \$106.62; B. J. Carney & Co., piling, \$187.50; E. Timpany, lumber, \$310.74; Shuswap Lake Lumber Company, lumber, \$149.12.

Mr. Kergin asked the Minister of Public Works:

1. Were any repairs made to the Government Buildings at Anyox during the past calendar year?
2. If so, were tenders called for same?
3. If tenders were called, in what papers were the advertisements placed?
4. Who received the contract, and on what condition?
5. What was total cost of work?
6. Give detailed report of the expenditures, whether by contract or otherwise?

Mr. Loughheed replied:

1. Yes.
2. Government Agent requested to obtain competitive prices from local reliable firms in accordance with Department's usual practice in such cases.
3. See answer to No. 2.
4. A. Falconer, in accordance with Department's specifications.
5. \$750.
6. Lump-sum bid comprising re-covering roof, renewing all flashing, cleaning, painting, varnishing, kalsomining, etc., and internal work, providing all materials, and labor, etc.

W. F. Somers to Take Saanich Council Seat

William F. Somers of Gordon Head, will represent Ward Three on the Saanich Council, being elected on Saturday by 145 votes to 44 cast for William Stubbs.

Mr. Somers has been president of the Gordon Head Fruit Growers' Association and was councillor for Ward Three from 1914 to 1918.

Electrical Industry Drops Boom Sharply

New York, March 10.—The boom in the electrical industry during 1929 has dropped off sharply, according to The Brooklyn Economic Service Inc., which adds: "The industry was favored not only by high industrial activity and ample public purchasing power, but also by such outside factors as the stimulus to fan sales by hot weather and the installation of 'taking' machinery in theatres. In the latter part of 1929, however, the tide began to ebb. It was not until the last half of the year that the volume of building under way receded rapidly; in the coming six months the number of buildings erected will be sharply below last year. Sockets, wiring, etc., will be hit, and buying of such articles as floor lamps will be reduced. In view of the retarded purchasing power of the public, household appliances—some of which have been sold rather freely on installment—will not be bought so liberally. On the whole, sales will average well below 1929 through most of 1930. This development is one of many that will force a cut in copper prices."

Metropolitan Aid Busy Preparing Its Forthcoming Play

The monthly meeting of the Metropolitan Ladies' Aid Society was held on Friday when twenty-two members responded to the roll call. The meeting opened with the usual devotional exercises, with the president, Mrs. E. O. Weston, in the chair.

Final plans were made for the play entitled "Marrying Anne," which will be given in the schoolroom for two nights, March 24 and 25. Much time has been spent in preparation of this entertainment, and the ladies expect the schoolroom to be taxed to its utmost capacity. Tickets may be secured from any member of the organization. The ladies are catering for the father and son banquet on Friday, and owing to this coming unexpectedly, the guest tea, which was to have been held on March 18, is postponed until next month.

One new member was received and welcomed, in the person of Mrs. G. W. Johnson. Afternoon tea was served following the meeting by Mrs. F. H. Williams and Mrs. Nancarrow. A liberal collection was received, to be used in purchasing flowers for any sick members.

Mrs. Ruby Moore's Pupils in Recital

A recital of violin and piano numbers was given by pupils of Mrs. Ruby Moore on Saturday evening at 8 o'clock. Solos, trios, duets and ensemble playing were given and the hall was well filled with interested listeners. Those taking part were as follows: Piano, Olive and Elsie Kilbey, Marjorie Murray, Jan. Betty, and Mollie Lewellyn, Lars Larsen, Rosemund and Dorothy Jones, Doris Hoffman, Vera Tilley, violin, Jessie Bell, Albert Tilley, Harold George, Gladys Keir, James Hogg, James Smith, Melbourne Little, Lloyd Main, George Little, and Betty Claxton (from Sefton College); Victor Moore, a pupil of W. Curney, and Marian Jull, assisted with songs, and George Little, pupil of Mrs. Ord, gave a recitation. A collection taken for choir music for St. Mark's Church, had satisfactory results.

Reformed Episcopal Silver Tea—Miss Murray, president, is lending her home, 1000 Park Boulevard, for a silver tea on Thursday, March 13, from 3 till 6, in aid of the funds of the Ladies' Aid of the Church of Our Lord, Reformed Episcopal. A musical programme is being arranged and a delicious tea will be served.

Lamp Presented To Miss Vimpany By Music Pupils

The pupils of Miss P. Isabel Vimpany, gave a recital in the drawing-room of the Y.W.C.A. Saturday evening, the room being packed with parents and friends of the young performers. It was made the occasion of presenting the certificates to those who passed the examinations of the Associated Board of the Royal Academy and Royal College of Music, London, England.

Mrs. W. A. Hick L.A.B. presented the certificates to the following: Primary, Celia "Gorst," Thyra Georgina Gaetz, Mary Margaret Gorst; elementary, Isala May Neelands; grammar of music, division I, Mary Dixon White; special prize for obtaining high marks, Celia Gorst. Miss Margaret White, pupil of the B.G. Dramatic School, added greatly to the enjoyment of the evening by her clever recitations, which were received with great applause. Miss Doris Gilbert and Miss Florence Simpson, pupils of Mrs. Hick, delighted their hearers with a duet, which was very much appreciated.

The following pupils took part: Rupert Maymish, Molly White, Mary Fyvie, Jackie Stephenson, Thelma Cave, Teddy Robertson, Una Walsell, Thyra Gaetz, Madeline McKilligan, Dave Fyvie, Elsie Darley, Mary Gorst, Mildred Duncan, Ales, McKilligan, Celia Gorst, Bob Gaetz, Isala Neelands and Phyllis Smart.

The Misses Isala Neelands and Phyllis Smart presented Miss Vimpany with a beautiful Aladdin lamp and a bouquet of carnations and fern as a token of appreciation from her pupils. The evening closed with the rendering of Beethoven's Sonata No. 4, by Miss Vimpany, and the singing of the national anthem.

Anti-violence Society—The local Anti-violence Society will hold a birthday party on April 3 at the New Thought Hall, Fort Street. As the movement was first inaugurated in Victoria, this is also the ninth anniversary of the Dominion's protest against violence. An invitation has been extended to Ernest Fawcett, M.D., of Vancouver to be the speaker on April 3.

Juvenile Foresters—The Juvenile Foresters' Court Liberty, A.O.F., will meet on Friday, March 15, at 8 o'clock. New members will be initiated and at the conclusion of the meeting a dance will be held with Tommy Larman at the piano. Ice cream will be served by the adult committee.

Dr. O. M. Jones Chapter—The regular monthly meeting of the Dr. O. M. Jones Chapter, I.O.D.E., will be held at the home of Mrs. H. H. Hare, 1380 Monterey Avenue, Oak Bay, to-morrow at 8 o'clock.

YOUR BABY and MINE by MRS. METER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

THE WHINY CHILD IS THE THWARTED CHILD

No one likes a whiny child. Crying is irritating enough but whining is the drip-drip-drip that wears away the stone. Some children are never able to keep that whiny note out of their voices. Instead of questioning, "Mother, may I take my bicycle out on the walk?" they whine, "Why can't I ride my bicycle—I wanna ride my bicycle."

This state of affairs does not develop over night. It arises quite simply from the fact that until the child discovered whining, he got no place at all with his parents. Just to ask his mother if he could do something usually received a curt "no" as answer. However, if he whined sufficiently the parent melted, or sized down, and the child won out. Sick children whine. Fatigued children whine. But it is an outrage for well children to whine, and the mother needs to do some mental housecleaning when she finds that situation in her own family.

OPPOSITION ENCOURAGES WHINING

Some parents get a perverse satisfaction from thwarting a child. It seems difficult for this type of parent to say "yes" to anything, however harmless. The "no" just pops out. We often wonder if this is because of some dim remembrance of thwarted desire in her own childhood, for which she is making her own children pay. A dominating parent may have been a dominated child, or the desire to say

"no" may be sheer laziness. It's easier to say "no" than "yes."

Yet children are easily satisfied. They whoop with rapture when they can put on their boots and wade in the puddles, or have Janie over to play, or wear the very best pink dress on a week day. Why should a parent feel that three-fourths of disciplining a child consists of frustrating any expressed desire?

If the mother offers constant opposition she pays for it by having a whiny child—a child who has temper tantrums or crying spells or just whines and whines until eventually he gets his way. How much easier it is to take into account that every child is active, every child has to run and jump and shriek and climb instead of sitting down, sweetly and playing quietly as the mother thinks proper. Don't say it is impossible to let the child be active. In nursery schools there is not one, but ten children active all the time. And they don't climb up on tables or cut up books or dash the vases on the ground or pick the flowers, because they have outlets for their natural activities.

In the home the mother thinks up every known method to keep the child from being active. She would like to have him playing with blocks all day long or holding a rattle in his hand. This is in the early stage, but it leads to the later one when the thwarted child, unable to act, just whines. He has found that this brings his mother to relent and wins him the cookies or the playmate or the bicycle ride which he should have had without resorting to his master trick.

Lou Tellegen Is Married Again

Aubury Park, N.J., March 10.—(AP)—Lou Tellegen, stage and screen actor, and Miss Katherine Tzanova of New York, were married here yesterday by the Rev. Martin L. Ferris, a retired Baptist minister. Tellegen is the divorced husband of Geraldine Farrar; Metropolitan Opera singer and movie star.

V.O.N. Meeting—The regular monthly meeting of the local board of the V.O.N., combined with the first Lenten sewing party, will be held at Mrs. H. G. Lawson's residence, 960 Foul Bay Road, at 2:30 o'clock to-morrow.

Pensioners' W.A. Reorganized And Socials Planned

The Ladies' Auxiliary of the Canadian Pensioners' Association was reorganized at a well-attended meeting held recently, when officers and directors were appointed. About fifty women attended the meeting and plans were made to resume the Saturday evening whist drives, commencing next Saturday at 8 o'clock. Prizes will be given and refreshments served.

The auxiliary will also hold a silver tea at the headquarters branch, 720 Fisgard Street, on St. Patrick's Day, Monday, March 17, at 8 o'clock, to which pensioners and their families are invited. There will be several speeches by disabled veterans after the supper and several important letters from the Dominion Command will be read.

Membership in the auxiliary is open to wife or widow of pensioners. Applications for membership may be obtained at the headquarters, Fisgard Street.

Pupils of Miss Gwen Harper In Fine Programme

Saturday evening at the New Thought Temple, Fort Street, the pupils of Miss Gwendoline Harper appeared in their annual public recital. All the numbers were well prepared and played with an assurance and musical understanding which was a credit to their teacher and a pleasure to the large audience of parents and friends.

The pupils, ranging from little ones with six months' tuition to the advanced, revealed some fine talent which is being well developed both technically and musically. During the evening Miss Geraldine Paterson was presented with the elementary grade, first-class honor certificate from the Toronto Conservatory of Music, Geraldine being the only pupil entered for examination last year.

At the conclusion of the programme, Georgia Dowdall, on behalf of the pupils, presented Miss Harper with a beautiful basket of carnations and roses. Those taking part in the programme were Georgia Dowdall, Billy Luney, Brenda Currie, Barry Harper, Betty Mae Cameron, Mabel Nicol, Jean Tinker, Emily MacColl, Vera Swan, Geraldine Paterson, Phyllis Cowan, Marjorie Tinker, Mary Orme, Jean May, Geoffrey Robbina, Lucy Shaw, Eugene Philion, Christine Addison and Kenneth Stevens.

The Ireland of America may be said to be Maine, New Hampshire and Vermont, for snakes seldom are seen in these three states.

Canadian Championship Series For Canadian Baseball Planned

THE SPOTS DETROIT WINS OVER TORONTO IN ROUGHEST BATTLE THIS SEASON

Babe Ruth has signed. The home run king came to terms on Saturday afternoon by affixing his signature on the dotted line calling for a \$60,000 a year salary for the next two years. This brings to a climax a long salary disagreement between Ruth and the New York Yankees. Ruth demanded \$65,000 a year for the next three years in his new contract. The Yankees balked, but Ruth was determined to get what he wanted.

Ruth held a conference with Col. Jacob Ruppert, the club owner, on Friday, and no doubt the settlement was reached then. The Yankees' first offer to Ruth was \$50,000 for a single year, and the home run king balked. He then got his \$65,000, but succeeded in having his salary raised \$10,000 over his previous contract, which expired at the end of last season.

Major league pitching stars are in the south getting in shape for the coming season. From this day forward will come stories of rejuvenation of that bad shoulder, that aching arm, that right hand, and of that leg that used to be perfect and now, mingled with the assortment of tales of strange new curves and hop-balls that will be seen when the teams move northward. New hooks, stop-balls, fadeaways, floaters, knuckle-balls will be discovered from day to day by the pitchers in the south. Some of them will be real, but most of them will be forgotten by the time the season opens.

No pitcher is above experimenting. At no time or another they all catch the fever of discovery. Even the great "Hurricane" Mathewson had it. He worked for weeks with a new spit-ball that would wiggle. It was a slow one, and did strange things with the way the plate, but in the end Matty had to give it up. He couldn't control it. That is the way with most trick deliveries: you never know where they're going. Spring training camp used to be a fertile field of fancy. In the old days there were all kinds of stories from the south about strange deliveries that would be revealed in the time of play. There is still the classical yarn about the discovery of the spit ball.

For several years a catcher for the New York Giants named Bowerman threw spitballs without knowing what they were. He would wear his fingers, heave the ball to second and it would take on a crazy motion. Whether or not that is where Elmer Stricklett, of the Dodgers, got his idea for the spit ball is not known, but it was Stricklett, fooling around with the ball in spring training, who gave the baseball world one of the most deceptive deliveries of all time.

The story of Stricklett's discovery was flashed over the wires, and it was no time at all until scores of pitchers were trying it. The sports editor of one Chicago paper refused the story, saying it was "vulgar stuff." The spitball was continued until the baseball magnates decided it wouldn't be a bad idea to have the men at the plate sock one over the wall for the edification of the fans once in a while. It was abolished by this understanding that these pitchers who at the time depended upon it could retain its use.

Gradually the number of spitball throwers dwindled. This year there are still four men allowed to molest the apple before they throw it. They are Jack Quinn, of the Philadelphia Athletics; Burrell Grimes, of the Pittsburgh Pirates; Urban Faber, of the Chicago White Sox; and Clarence Mitchell, of the Cardinals. Grimes is still going like a house afire. Faber also is pitching good ball. Quinn was pounded from the box in his series appearance last year, but there are still ball men left in the Pottsville minor. Mitchell of the Cardinals is thirty-nine and still flinging foolers. It all started because a pitcher wanted to find an easy way to get the side out.

Toronto Wins Over Detroit In Roughest Battle This Season

Rusty Hughes of Cougars Handed Match Penalty; Six Majors Passed Out as Leafs Win 2-1; New York Americans Come to Life and Defeat Chicago 5-2; Hawks Lose Chance to Cinch Second Place in American Division; Play-off Clubs All Decided.

Canadian Press

New York, N.Y., March 10.—The National Hockey League race was reduced to three contenders in each group through last week's games and the places of the half dozen teams which have won play-off positions began to straighten themselves out.

Montreal's Maroons practically clinched first place in the Canadian group after a long struggle by winning two of their three games. After losing a 6-2 decision to Ottawa, they shut out Les Canadiens, second-place team, 4 to 0, then nosed out Toronto Saturday, 3-2.

FAVORITES WINNERS IN GOLF PLAY

Seeded Players Find No Trouble in \$5,000 Four-ball Tourney at Miami

Sarazen and Farrell, Defending Champions, Win Their Match 7 and 6

Miami, Fla., March 10.—Favorites in the first day of play in the \$5,000 international four-ball match classic stroked their way to easy victory over Miami Country Club course yesterday as sixteen two-man teams won their 36-hole matches.

Gene Sarazen and Johnny Farrell, winners of the 1929 event and runners-up for 1929 had an easy time as they chalked up a 7-6 win over Jack Thompson, Youngstown, Ohio, and Johnny Connell, Chicago. The former champions were one down during their first nine holes, but squared themselves on the eighteenth, and on the outpouring tide in the afternoon piled up a five-hole edge that resulted in their 7-6 score.

Horton Smith, newly-signed professional at Cragston, N.Y., and Ed Dudley of Wilmington, Del., held their seeded position in the lower bracket with a 3 and 2 victory over Wilfred Reid, Murray Detroit professional, and Charlie Murphy from Toronto. The winners led all along the way.

A CLOSE MATCH
The day's only extended thrill to the gallery was the Willie Dow-Earl Howell affair with Johnny Manion, St. Louis, and Jim Dante, Madison, N.J., in which the latter won up in 39 holes.

Dow, from Fargo, N.D., and Howell, from St. Louis, were alternately in the lead and behind until the twenty-seventh hole. From there they were even up to the thirty-ninth, where Dow missed a 16-inch putt to give the day's laurels to his opponents.

Denny Shute, Columbus, Ohio, winner of the 1930 Los Angeles event, paired with Tony Manero, Elfinor, N.Y., in an overwhelming 7-5 defeat of Mike Turney, Elmford, N.Y., and Herman Barrop, Port Chester.

ROSENBLOOM AND JOHNSON ARE TO MEET

Light Heavyweight Contender to Tackle Hard-hitting Negro To-night

New York, March 10.—Madison Square Garden has scheduled two shows this week to regain for New York the fistic leadership of the nation.
To-night the Garden presents a ten-round bantamweight "Maxey" Stapey-Rosenbloom, light heavyweight contender, and Larry Johnson, hard-hitting Chicago negro, in the feature of a charity show. Johnson dropped a close decision to Pete Latzo in his last appearance here, but was given the bout with Rosenbloom in any way. Latzo, Buffalo light heavyweight, takes on Rosey Rasales of Cleveland in the ten-round semi-final.
Friday, the Garden's second show of the week, will be headed by a ten-round bantamweight contest, first while featherweight champion, and Stanislaus Loyzas, Chilean lightweight. At the Chicago Stadium Friday night Rene De Vos, Belgian middleweight, takes on the clotting Texan, Clyde Chastain, of Dallas, in the ten-round final. Ernest Schacht, Boston heavyweight, meets Paul Pantalone of Chicago, in the ten-round semi-final.
GOBBY FIGHTING
Philadelphia's weekly card to-night finds George Godfrey, the huge Leipsville, Penn., negro, pitted against Jack Gross, the baker boy from Salem, in the ten-round final.
Eddie Mack, Denver's great junior lightweight, meets Goldie Hess of Los Angeles, in a ten rounder at Los Angeles Tuesday night.

Tilden Captures French Title In Poor Exhibition

Menton, France, March 10.—In one of the poorest first ever seen on the Riviera, Bill Tilden of Philadelphia yesterday won the singles title of the Menton tennis tournament from Jacques Brugnon, veteran French internationalist, in five sets. The scores were 10-9, 1-5, 3-6, 4-6, 6-1.
The first four sets went to one or the other, chiefly because of opponents' nets, faults, or outs, and both Tilden and Brugnon played extremely slippish tennis. In the last set, however, Tilden recovered his real form and won without trouble. In the final of the doubles, Tilden and Wilber F. Coen defeated Emilio Abo and Carl Asschenman, 6-3, 6-5, 4-6, 6-3.

Two Basketball Games at High Gym To-morrow

Two basketball games will be played at the Victoria High School gymnasium to-morrow evening. In a challenge game the Colonist cagers will stack up against the Y.M.C.A., while the Red Birds and Harmony girls' teams will meet in the other fixture.

Manitoba Cue Champion Winner Over Sid Beech

Winnipeg, Man., March 10.—Playing his most perfect billiards, Albert Smith, Manitoba champion, Saturday defeated Sid Beech, British Columbia title-holder, by 534 points in a thousand-point match for the right to travel east for the Dominion amateur championship. The scores were: Smith 1,000; Beech 466.
Smith made breaks of 95, 51 and 47.

Chandler's Goal In Final Second Beats Wednesday

Sheffield Club Beaten by Leicester City and Derby County Secures Undisputed Leadership in English First Division Soccer; County Gives Brilliant Display to Defeat Blackburn; West Ham Gains Revenge Against Arsenal; Scottish First Division Soccer Featureless.

Canadian Press

London, March 10.—Derby County held on to the leadership of the English Soccer League, First Division, on Saturday when Leicester City defeated the Wednesday by a goal obtained in the last minute of play. Derby County accomplished the fine task of going to Blackburn and beating the Rovers 3-0. The Wednesday were beaten by the odd goal out of three to give Derby undisputed leadership of the league.

In the Second Division Blackpool failed at home against Notts County and Oldham Athletic, winning against Stoke City, came up level with them again at the top of the averages. In the minor divisions, Brentford, who won easily against Crystal Palace, are at the head of the southern section of the third division while Port Vale look to be safely due for promotion. Port Vale, top of the northern section and Saturday beat South Shields.

Thirty-five thousand saw Leicester City triumph over the Wednesday. Seed, of the Sheffield team, provided excitement in the early stages of the game by a great, though abortive solo effort. The time scored for Leicester after twenty-three minutes of play. There were thrills abundant in the second half. Seven minutes after the restart Narsen equalized. Leicester entered the Wednesday territory in reply and Brown appeared to kick the ball against the post and over the line. The referee disallowed the score, the teams battled on even terms until, when Chandler got through and scored for Leicester.

Derby County began in brilliant style against the Rovers, Stephenson heading in Crook's centre in the third minute. Narsen added a second soon afterwards. The Rovers settled down and fought hard, but unsuccessfully to reduce arrears. Bedford put Derby further ahead in the first minute of the second half through a penalty. The Rovers could make no headway against the compact defence Derby put up.

West Ham scored their first goal in the first half, but in a cup tie they were defeated in a cup tie last week. They won by 3-2 after a splendid match. The first twenty-four minutes were very even and then Jack scored for Arsenal on a powerful cross-shot. Watson equalized Ruffell's pass three minutes later. West Ham attacked relentlessly for the first fifteen minutes of the second half and finally Earl turned Ruffell's good centre into the Arsenal net. Arsenal came back strongly and Hutton saved splendidly from Basil. Watson ran down the field and shot a grand goal for West Ham. Jack scored for Arsenal three minutes from the end.

The Chelsea-Charlton Athletic match, which was a draw, 4-4, was a tame. The game ended in a 1-1. Crawford put in a fine centre, which Mills converted for Chelsea's goal. Whitlow equalized just before the interval.

Oldham made a great display at home against Stoke City, winning by 5-0.

Brentford played clever football to beat Crystal Palace by 2-0, through the losers in the early part of the game enjoyed rather the best of matters.

Glasgow, Scotland, March 10.—Scottish First Division soccer on Saturday was featureless. Rangers, headed for their second consecutive championship, were very busy with their own game. Marshall and McPhail scored for them in the first half and McPhail and Fleming, twice in the second.

Aberdeen, who had several changes in their line-up, won deservedly against Kilmarnock by 4-3. Cheyne and Yorkston scored in the first half and the same two in the second half for Aberdeen. Kilmarnock scorers were: Wales, two, and Smith.

Ayr United registered a good home win against Aldrinroans. Ferguson scored for Ayr and Burke for Aldrinroans in the first half. McKelvey and Misseth had Ayr's second half counters.

Clyde deserved better than a one-all draw with Dundee. Borland netted for Clyde, and Campbell for Dundee. Both goals coming in the first half. St. Johnstone who are at the bottom of the table, had a bad day, being beaten by St. Mirren. Stewart and Stewart scored for St. Mirren and then Stewart and Cameron netted for St. Johnstone. Rankine had St. Mirren's winning goal.
Celtic scored the two goals by which they beat Hibernians in the first half through McGroarty and Scarfe. The match was rough and Wilson, Celtic right-half, was ordered off.

JUNIOR CHAMP WINNER

Desmond Barrett Carries Off Medal Honors in Galt Cup Golf at Oak Bay

Turns in Net Score of 67; Art Beasley and Jack Matson Have Gross 75's

Desmond Barrett, holder of the junior championship of the club, carried off the medal honors in the eighteen-hole qualifying round of the Galt Cup competition at the Victoria Golf Club yesterday. Barrett shot a gross 82, which his handicap of 15 reduced to a net 67. Barrett had a lead of two strokes over Jack Matson, Art Beasley and A. E. Haynes, who tied for second place, each with net scores of 69.

Matson and Beasley were right on their game yesterday, both turning in gross scores of 75. Matson went out in 38 and came back home in 37, while Beasley was out in 37 and back in 38. Barrett had a 38 on his first nine but took 44 on the way in.

There were fifty-two entries in the competition, and the first round of match play will be run off immediately. The draw for the first round was announced this morning by Secretary Capt. J. V. Perks.

THE CARDS

The cards for Barrett, Matson and Beasley follow:
Barrett..... 69-44-44-33-38
Out..... 70-44-34-44-41-82
Matson..... 54-44-44-33-38
In..... 45-34-44-45-37-75
Beasley..... 54-44-44-33-37
Out..... 45-34-44-33-37-75
The scores in qualifying round and the draw for the first round of match play follow:

JUNIOR WILL MEET FLASHY CASTON HERE

Young Victoria Bantamweight Booked With Holder of Northwest Title

Caston Has Been Defeated Once in Over Fifty Fights; Place or Date Not Set

Jumbo Davies, Victoria's rising young bantamweight fighter, has been matched with one of the toughest opponents of his career, according to an announcement made this morning by W. H. Davies. Jumbo has been booked to meet Jackie Caston, hard hitting young bantam from Seattle. The date and place of the bout have not been decided upon as yet. It is expected the affair will be over ten rounds.

The match will be for the bantamweight championship of the Pacific Northwest, which is held by Caston. Caston has established an enviable record and has lost only one decision in over fifty ring engagements and that was to Tommy Gardner, a featherweight.

Recently Caston foughta three times in the Hollywood Stadium, winning every bout, one of his victims being Clayton Goyd, who had just previously held the sensational Filipino, Speedy Dado to a draw.

COLLEGIANS HAMMER OUT WIN OVER "Y"

Superior Weight and Experience of Champs Gives Them 12-3 Victory

Victoria College rugger, undefeated champions of the local and provincial intermediate leagues, upheld their laurels in the final game of the schedule here when they smashed their way to a 12-3 victory over the Y.M.C.A. in a bit-terly-fought preliminary to the Canadian Scottish-Ex-King George exhibition at the Royal Athletic Park Saturday.

The superior weight and experience of the Craigdarroch boys spelled victory over the hard-fighting association team.
Fifteen minutes after the start of the game, Bill Boorman, sure-kicking three-quarter for the blue-and-gold boys, opened the scoring with a pretty place-kick, to give the Collegians a 3-0 lead.
Shortly after Tom Coventry went over on a mob rush to equalize the score. His try was not converted.

Inter-provincial Competitions May Be Held This Year

Plans Are Now Under Way and Definite Steps May Be Announced Within Few Weeks, Delegates to Annual Meeting of British Columbia Amateur Baseball Association Are Told; Problem of Victoria Players Under Suspension Reviewed and Referred Back to Victoria League.

Canadian Press

Vancouver, March 10.—While British Columbia baseball has in the past always looked to the south for outside competition it is highly probable that within the next season or two diamond aggregations representing this province will be engaging in inter-provincial series leading up to the Canadian championship. There is already a movement afoot along these lines and some definite steps may be looked for during the next few weeks.

"A Canadian series leading up to the championship will be played this year if possible and, if not carried through to the finals, several inter-provincial competitions may be expected at least," asserts Alex. Courtney, newly-elected president of the B.C. Amateur Baseball Association which met in annual session at Spadina's Store, Hastings Street, Saturday night.

Mr. Courtney's election to the presidency was made unanimous, this being the second occasion on which the organization has chosen him as its guiding head. He succeeds Dan McKenzie who relinquished the office amid many complimentary remarks on the efficient manner in which he has handled several difficult situations during the last season.

Stan Smith was re-elected secretary-treasurer. Other officers appointed for 1930 are: president, W. Gray, honorary vice-president, Fred Cronin, vice-president, Joe Baker; second vice-president, W. Oliphant; Victoria delegates to A.A.U. of C., Dan McKenzie and Harry Coleman.

A number of amendments to the constitution were submitted by Matt Hunter, Victoria representative. One amendment sought to deprive past presidents of the right to vote at meetings of the organization, simply making them honorary members. This matter was debated at length and finally put to a vote, the amendment being lost, despite the fact that those past presidents in attendance did not exercise their franchise.

Another proposed amendment provided for the defraying of traveling expenses of the president, first vice-president, second vice-president and immediate past president while engaged in business connected with the association. This amendment was also lost.

The retiring president submitted a brief report covering the year's work. The report of the secretary-treasurer also reviewed the activities of the association and contained a number of recommendations. From a financial standpoint the season had been a pronounced success, the reported and although there were only 1,169 players registered in the various leagues as against 1,941 for the previous year, the calibre of baseball was much improved. During the year, however, 500 juniors had played in four leagues with unofficial affiliation.

Senior B baseball had flourished and the secretary suggested senior A officials look over the talent in this classification before going outside for players in future. The report reviewed the play-offs leading up to the unsatisfactory conclusion when Fraser Mills and the Washington champions allowed the series to go unfinished after each club had won two games. He suggested that in future a determined effort be made to have this series run on a more business-like basis so as to ensure some finality.

In view of the difficulties encountered last season when the association, by resolution at a meeting in June, permitted any team to replace an injured player, the secretary urged the association to rescind this motion.

The secretary commented favorably on the splendid encouragement given by the juniors and urged even greater efforts along this line. He suggested that junior players be given contracts for registration the same as seniors, and this recommendation was later endorsed by the meeting.

Finally the secretary urged some steps be taken with a view to having the Terminal and Victoria Leagues strengthen up so as to give senior A and B a better chance.

Yesterday's play witnessed the defeat of the defending holder of the trophy, J. R. Hiberson, who was beaten by H. G. Mackenzie 4 and 3 in the second round, while Walter Newcombe, who won the medal honors, fell before H. O. English 2 and 1 in the first round.

Complete results follow:
FIRST ROUND
H. O. English defeated Walter Newcombe, 2 and 1.
Allan Craig Jr. defeated J. H. McConnell at nineteenth.
H. M. Archibald defeated H. Brynjolfsson, 4 and 3.
J. Savident defeated R. V. James, 2 up.
H. G. Mackenzie defeated Dr. C. N. Westwood, 2 and 1.
J. R. Hiberson defeated R. Foutis Jr., 2 and 1.
Bob Schwengers defeated H. Barnes, 4 and 2.
J. B. Lambert defeated D. A. Macdonald, 1 up.

SECOND ROUND
H. O. English defeated Allan Craig Jr., 4 and 2.
J. Savident defeated H. M. Archibald, 3 and 2.
H. G. Mackenzie defeated J. R. Hiberson, 4 and 3.
J. B. Lambert defeated Bob Schwengers at nineteenth.

By years of hard practice, old Krabby has developed a very beautiful golf swing. He can't hit anything with it, but it sure comes in handy when he has his picture made.

WEST ROAD LOSES TWO

Are Only Able to Win One of Three Exhibition Basketball Games on Home Floor

West Road hoop teams dropped two out of the three games played at their home hall Saturday night, with the women turning in the only win, by coming out on the long end of a 38-11 score in their game with the Shavangian women. The Shavangian intermediate men took their game by a 42-34 score, while Keating defeated the weakened West Road seniors 29-23.

In the first game the home women's five was without the services of Mary Peden, their star forward, but the Alexander found her eye and rolled in sixteen points which was sufficient to defeat the visiting quintette. The West Road representatives played a nice passing game and every member of the team scored. Ruth Hawkins was the leading point getter for the losing team with six to her credit.

The teams and individual scorers follow:
Shavangian Lake—F. Sutton 2, H. Mackin, 2, F. Hawkins 6, R. Last and K. Luchowich 1.
West Road—A. Lalonde 2, E. Mathews 6, I. Alexander 16, L. Macmurchie 2, B. Armstrong 6 and L. Dandell 6.

With C. Lewington scoring twenty-eight points to lead his team, the visiting Shavangian men's five took Tommy Peden and his band of West Road hoopers into camp. Lewington was sinking scores from every corner of the floor and his teammates gave him some pretty passes close in.

W. Sluoger scored twelve points for the losing five.
The teams and individual scorers follow:
Shavangian Lake—C. Lewington 28, E. Lewington 2, E. Gibson 5, Yates 6, Cronk and Luchowich.

West Road—W. Sluoger 12, I. Butler, E. Blackford 10, A. Blackford, Peden 10 and Lalonde 2.

SENIORS BEATEN
Playing without the services of George and Mike Lannon the West Road seniors took a 39-25 defeat at the hands of the Keating quintette. With these two players off their line-up the home team had lost the services of their star forward and guard.
Michael was the scoring ace for the winners, collecting eighteen points during the evening. Schaff, a new face on the Keating five, also performed well and scored fifteen points.

Trail Again Provincial Amateur Hockey Champions

Brennan Stars As Smoke-eaters Beat Vancouver By 5-2

After Being Held to 4-4 Draw in First Game Interior Champions Flash to Splendid Victory Saturday Night; Brennan Nets Three of Trail's Goals; Vancouver Held Scoreless Until Final Period; Trail to Meet Blairmore, Alberta Champions, in Allan Cup Play-downs.

Canadian Press

Trail, B.C., March 10.—Once again the Trail Smoke-eaters will represent British Columbia in the Allan Cup play-downs. The team that gave Port Arthur, Canadian champions, such a tough battle in the Western Canada finals last spring will again endeavor to carry the province's amateur hockey colors through to the Dominion title.

After having been held to a four-goal draw by Vancouver in the first contest of the provincial two-game series, the Smoke-eaters showed their real form in the second game here Saturday night and flashed to a spectacular 5-2 victory over the Coast team. Trail thus won the round by a 9-6 count.

In Saturday's game the homesters ran in five goals before their opponents got one. The winners flashed a speedy and co-ordinated attack from the start, and this, combined with an iron-clad defense, made things look bad for the Vancouver entry. The visitors got both their goals in the final frame, when the Smoke-eaters eased up after their strenuous efforts of the two preceding sessions. The Vancouver threat was only temporary, however, and once their two goals were in, the Smoke-eaters' three-goal margin was kept intact until the final bell.

BRENNAN SCORES TWICE

The locals went right after the title from the opening whistle and led by their sterling centre ice player, Brennan, opened a hot attack on the Vancouver net. Six minutes after play began, Brennan went through from a face-off near the Coast team's net and beat Hope from close range. Six minutes later he shot one from the blue line which caught the Vancouver goalie unawares and Trail was two up.

The homesters continued their dazzling offensive in the middle session, and before the end of the period led by 4-0 on goals by A. Mackie and Gustafson. Gustafson's came on a pass from Kendall.

Less than three minutes after the start of the final period the result was practically put beyond all doubt when Trail went into a 5-0 lead on Brennan's third goal of the night. Kendall also got an assist on this one. The Smoke-eaters then eased up and Vancouver avoided being shut out when Henderson scored two quick counters, the first on a pass from Sibbett and the second unassisted. The visitors continued to press in an effort to make up lost ground, but the Trail defense tightened and gave Garland stonewall protection until the final bell.

A capacity crowd jammed the rink to witness the game. Nineteen penalties were meted out by the officials during the play, but all were for minor offences, the close checking tending to bring the players into close contact throughout.

Trail will next engage Blairmore, Alberta champions, in a two-game Allan Cup elimination series. The first game will be played here to-night, with the second contest also here on Wednesday.

Alex Defayette Snooker Champion

Montreal, March 10.—The Dominion professional snooker championship was captured by Alex Defayette of Hull, Que. here Saturday night, when he defeated A. C. Ball of Regina, western Canadian title-holder, 13 sets to 12. Defayette had piled up a commanding lead of 11 to 3 on Friday night and only required two games Saturday night to win. The Westerner, however, quickly ran up five games to make it 11 to 10. The best two were won in turn by Defayette and Ball and Defayette captured the twenty-fifth game.

MATCH ENDS IN A DRAW

South Cowichan and Garrison First Division Badminton Clubs in 9-9 Tie

Endeavoring to settle one of the last fixtures of the season in the Lower Island Badminton League, South Cowichan and the Garrison first division teams battled to a 9-9 tie in a match played Saturday evening at the South Cowichan Club. Christ Church added two points to their standing in the third division at the expense of the Saanich Club, while Langford Lehighs took another scheduled match from the Garrison third team by default.

Garrison and the South Cowichan with the sanction of the league agreed to play for four points, as they each had home fixtures left with the other, and the match took added interest on this account. Garrison have finished in second place, a considerable distance behind the Duncan team, who have won the honors in that section. South Cowichan, with its brilliant youngsters Leney and Birch performing in great style, started well, winning two of the three men's doubles, in which Auten-Leigh and Woods were the only Victoria winners. Garrison came back with a determined effort to win all three women's doubles. Seven victories in the mixed doubles gave the Up-Islanders a draw.

(Concluded on Page 14)

BOWLING

Bowling fixtures in the City, Commercial and Fivelin Leagues for this week follow:

CITY LEAGUE

Thursday—James Island vs. Colonist

Friday—Colonist vs. Jokers

COMMERCIAL LEAGUE

Monday—Rogues vs. Colonist Want Ads

Tuesday—Restorer vs. James Island

Poodle Dog Cafe 8 16 333

Upa and Downs 5 19 206

An important meeting of the City and Commercial Leagues will be held at the Arcade Alley on Tuesday at 8 o'clock. All players are asked to attend.

WINS HONORS

DESMOND BARRETT

Junior champion at the Victoria Golf Club, who won the medal honors yesterday in the qualifying round of the Golf Cup competition.

Belloni and Debaets

Win Six-day Race In Sensational Finish

New York, March 10.—Pedaling madly through a continuous upsurge, Gaetano Belloni, "bushy-haired Italian," and his Belgian partner, Gerard Debaets, broke a six-team tie for first place in the final fifteen minutes of the 48th international six-day bike race Saturday night, and won the closest struggle in the history of the sleepless grinds by a margin of one lap.

The winners traveled 2,330 miles and nine laps. Although five teams tied for second place in miles and laps, one circuit behind the winners, the point system of scoring sprints gave Tony Beckman of Sacramento, N.J., and his partner, Norman Hill of San Jose, Cal., second place, while Freddy Spencer of Plainfield, N.J., and Franz Deulberg, German youngster, were awarded third place.

Amateur Hockey

Cobalt, Ont., March 10.—Sault Ste. Marie Greyhounds won the northern Ontario Hockey Association Junior Championship here Saturday night by defeating the Cobalt Miners, 7-3, in the second of their home and home series. The Greyhounds won the first contest at the Soo, 13-2.

Two Canadian Net Championships Won By Vancouver Stars

Miss Eileen George and Mrs. J. Woodman Retain Doubles Crown in Badminton Championships; Miss George and Jack Underhill Again Capture Mixed Doubles by Victory Over Mrs. Woodman and Noel Radford; Three Other Crowns Won by Easterners; Finals Disappointing.

Canadian Press

Ottawa, March 10.—Three Canadian championship titles remained in the east and two went to the west at the conclusion of the final rounds of play on Saturday in the ninth annual tournament of the Canadian Badminton Association played on the courts of the Badminton Club of Ottawa. The finals, which proved a distinct anti-climax after the sensational play in the semi-final rounds on Friday, were witnessed by a crowd of more than 1,000 enthusiasts, including Their Excellencies the Governor-General and Viscountess Willingdon, who on the completion of each event presented the trophies to the finalists.

One reason for the finals being rather disappointing was the fact that Noel Radford of Vancouver, finalist in two events, who sustained torn ligaments in his right hip on Thursday, found that his strenuous efforts on Friday had rendered it all the more painful, and reduced his court-covering ability to a vanishing point. Mrs. John Porteous of Montreal took the women's singles title, carrying with it the Challenge Cup, by virtue of her defeat of little Miss Norma Hall and fourteen-year-old Ottawa entry in the final round of play. Mrs. Porteous dropped the first game to her youthful opponent, whose play has been the sensation of the tournament.

HOLLOW VICTORY

Jack Purcell of Toronto retains his hold on the men's singles title after a rather hollow victory over the crippled Noel Radford by 15-1, 15-0. Unfortunately the circumstances surrounding Purcell's victory are likely to cause the fact to be overlooked that throughout the tourney Purcell played scintillating badminton, having dropped but forty-four points in the five matches in which he took part, an average of but four and one-half points a game, defeating at the same time three of the four Vancouver entrants in the men's singles.

The defending champions in the women's doubles, Miss Eileen George and Mrs. J. Woodman of Vancouver, were successful in their quest for their second title, defeating Mrs. H. P. Wright and Miss Ruth Robertson of Ottawa by 15-6, 15-10. The men's doubles title, which was undepended, was taken by Colonel G. S. Blackstock and V. K. Andrews of Toronto, who staged a Garrison finish to take the Canadian championship with flying colors from A. B. Massey and Terry Sheard of Toronto, 11-5, 15-3.

O.C. Rugby

London, March 10.—Results of rugby football matches played on Saturday in British Isles and reported to-day were:

Glasgow University 13, Kelvinside Academical 13

Hillhead 6, Edinburgh Institute 3

Bradford 7, Otley 33

Croskeys 3, Newbridge 0

Liverpool University 14, Liverpool 0

London Welsh 15, King's College Hospital 3

Nunston 34, Old Dunstonians 5

Old Edwardsians 6, Rugby 3

Birmingham 10, Birmingham University 3

Cheltenham 19, Clifton 6

Solihull 14, Birmingham 6

Edinburgh Wanderers 6, Melrose 3

Royal High School 12, West of Scotland 7

Fast Ex-King's Backs Score Brilliant Win Over City Champions

Tricky Three-quarters From Mainland Account for 17-9 Victory Over Canadian Scottish in Sensational Rugby Exhibition; Murray Rowen's Outstanding Play Fatal to Highlander's Chances; Scots Show Spirited Rally in Second Half But Fail to Overcome Commanding Lead.

In one of the fastest games of the season, marked by some of the most dazzling plays seen here, Ex-King George, Vancouver's senior rugby team, gained a 17-9 victory over the Canadian Scottish, city champions, in an exhibition fixture at the Royal Athletic Park on Saturday. Both teams played all out for the full seventy minutes of the match, and had the spectators on their toes from start to finish. The speed of the opening scores, when Vancouver took a 3-0 lead from the kick-off and when Victoria equalized a minute and one-half later, set the fans in a high state of excitement and kept them taut to the final whistle. The game also saw the most remarkable try of the season when Murray Rowen, "galloping ghost" of the Ex-Kings, received the ball at his own twenty-five from the second half kick-off and swerved his way through the entire Victoria team to plant the ball between the posts less than a minute from the resumption of play.

HORSE RACING

Agua Caliente, March 10.—Results of horse racing here yesterday follow:

First race, six furlongs—1, Rock

Thorne, \$12.50; 2, \$9.40; 3, \$5.40

Star, \$6.40; 4, \$4.20; 5, Ferriehon, \$4.20

Seventeenth race, one and one-half miles: Tin Soldier,

\$4.20; 2, \$3.80; 3, \$3.60; 4, \$2.50; 5, \$2.50

Time, 3:07 3-5

Eighteenth race, mile and one-eighth: Cande C,

\$7.50; 2, \$4.20; 3, \$4.00; 4, \$2.50; 5, \$2.50

Time, 1:46 3-5

Nineteenth race, six furlongs: Sir Rapi-

d, \$12.40; 2, \$5.80; 3, \$5.20; 4, \$2.50; 5, \$2.50

Time, 1:13

ESQUIMALT AND SAANICH WIN MATCHES

Scores Victories Over Jokers and Victoria City in Combination Cup

City Handed 6-0 Drubbing By Thistles; Youngsters in Keen Matches

Equimalt and Saanich Thistles improved their standings in the Combination Cup soccer series on Saturday afternoon as a result of victories over the Jokers and Victoria City. The Dockers accounted for the Jokers at Beacon Hill 2-0, while the Saanich eleven took the City into camp 6-0 at the Central Park. In this series the Victoria West are leading with a single point margin over the Jokers, who in turn lead the Thistles by a lone point. Equimalt follows one point behind Saanich.

Scoring two goals in the first half, Equimalt gave a more finished exhibition to beat the Jokers. Kicking with the slope in their favor the Dockers went on the offensive from the starting whistle and their first goal came soon after the start when Campbell, one of the Jokers' full-backs, deflected the ball into his own net in attempting to clear. Play at this stage was fairly even, but the Equimalt's back division was too powerful for the Jokers to penetrate. Twenty-five minutes after the opening whistle Equimalt went two goals up, John Wall beating Chalmers with a shot from away out. The Jokers had a fine chance to break into the scoring column when they were awarded a penalty, but De Costa, in the Equimalt net, saved McBay's shot.

In the second half although they had the ground slope in their favor the Jokers were unable to break into the scoring column, and only the fine work of Chalmers kept Equimalt from scoring additional goals.

The teams were as follows: Equimalt—De Costa, Sweeney, Ferguson, Homer, Bob Stewart, Ray Foster, "Scotty" Stewart, John Wall, Smith and Roberts.

Jokers—Chalmers; McKenzie, Campbell; Clarke, Banks, Philipson; Carr-

Michael, Dobbin, McEwen, McRay and Martin (captain).

Forced to play with one man short, Victoria City proved no match for the Saanich Thistles. However, even if the City had fielded a full team it is doubtful if it would have made much difference, as the Thistles were far the better team, outclassing their opponents at every turn.

The game had only just started when King netted the Thistles' first counter with a stiff shot that Abbott had no chance of blocking. The Saanich eleven flashed some pretty combination play soon after that resulted in Minnis scoring their second goal. This same player made it 3-0 a few minutes after play resumed from the interval. From this stage until the finish the Thistles had everything their own way. Viggers netted the fourth goal, while King got the fifth, with Viggers scoring his second goal of the match to bring the Thistles' total to six.

Woodley refereed.

The teams were as follows: Victoria City—Abbott, Margison, Gilbert, Bowman, Campbell, Southern, Sherry, Glancy, Peden and Ord.

Saanich Thistles—Hogan, Ross, Harper, Armistead, Joe Crowe, Jim Crowe, Viggers, Minnis, King, Essler and Price.

them in literature and famous dramatists have added to their Oriental lustre on the world's greatest stages.

The Orient is the locale of picturesque romance just as Ireland is the home of the Blarney Stone. To the magnetic streets of Shanghai are attracted adventures from the four corners of the world, adventurers who find there the irresistible lure which made the city the crossroads of the earth.

Such is the fascinating setting of Universal's "Shanghai Lady," starring beautiful Mary Nolan, which is showing at the Capital Theatre. To the natural appeal of the locale has been added the tremendous glamor of the John Colton play—the meeting of two white drifters, a man and a girl, at the crossroads, and of what then transpires.

Mary Nolan, long acclaimed as the most gorgeous beauty on the screen, was elevated to stardom to play the dynamic Castle Cook of Madame Polly Voo's classic "Ice-cream" and James Murray plays opposite her as the young defector who has succumbed to the lure of the China coast.

COMEDY BY ROYAL PLAYERS

"Meet the Wife" Title of Hilarious Presentation This Week

Lilian Christine Appears in Leading Role With Bodkin and McLeod

The Gordon McLeod English Players open their eighth week at the Royal Theatre to-night with the comedy "Meet the Wife." This humorous play is one of the greatest laughter makers in the world of the theatre. When produced in New York and London this play had exceptionally long seasons. In London, Constance Collier, one of the country's best comedy actresses, played the leading role with great success.

Victoria audiences will welcome Miss Lilian Christine in the lead here. The part of Gertrude Lennox is a most exacting one, but in the clever hands of Miss Christine no doubt will be brilliantly portrayed. Gordon McLeod and Ernest Bodkin bring to the performance the finish and accuracy of delineation which they have so well displayed here. Margaret St. Barbe West appears a charming young girl, and Roland Gillett and Claude Bailey give clever personations of two young men of very different mentality.

"Meet the Wife" is packed with fun and a week of hilarious laughs is in store for Royal patrons.

"She Goes to War"

Current Showing At the Columbia
Director Henry King Achieves Fine Success With New Film

The relegation of such figures as the waxed moustache villain, the grotesquely dressed comedian and the slick haired hero to the motion picture "junk heap" ushered in a new era in the drama.

And the transition from such crudely drawn character depiction to the subtle comedy and suave villainy of to-day was accomplished by a few pioneers who dared to upset all recognized practices.

Among them was Henry King, famous director, who violated all the rules of motion picture casting by taking Ernest Torrence from a comedy role in the stage production "Night Boat" and making him famous overnight in a tragic role in "Tolable David."

King, now being shown at the Columbia Theatre for Inspiration Pictures, promises to parallel his earlier efforts by disclosing at least two players as new types never before attempted by him.

All-talking Sea Picture Is Work Of Two Masters

Hobart Bosworth Has Leading Role in Playhouse Film

Two sea dogs of the screen are united in "Hurricane," the Columbia all-talking epic of the sea, now being shown at the Playhouse Theatre. They are Hobart Bosworth, director, and Hobart Bosworth, star. These two have been associated with sea dramas so long that it is difficult to think of one without thinking of the other.

Bosworth is responsible for the first sea picture ever brought to the screen. It was the sensation of its day and in proportion to its cost, made more money than any other picture he has ever made. In every sea story in which he has appeared, Bosworth has been successful. "The Blood Ship," selected by Bosworth as excellent screen material and produced by Columbia was among the best pictures of its year.

It is noted for his work both as an actor and director in "Shanghai," and "Breed of Sea."

Exponents of the virile type of heroism that is supposed to be the product of the sea, Ince and Bosworth make a combination that has produced in "Hurricane" one of the most fascinating pictures of the year.

MAE MURRAY IN BIG TALKIE SUIT

Failure of Picture Leads to Court Action For \$1,750,000

Los Angeles, March 10.—"Artistic failure" of her talking picture, "Peacock Alley," is cited by Mae Murray, actress, in a suit for \$1,750,000 filed to-day against Tiffany-Siati Productions Inc., as having subjected her to "ridicule and humiliation."

Of the total amount of damages asked by Mrs. Murray, who brought the action under her legal name, Mae McDivall, \$1,500,000 is designated as for the purpose of compensating her for "seriously injuring" her professional standing and "\$250,000 is asked in settlement of alleged loss of profits on another projected film which the defendant failed to make."

The petition, filed in Superior Court, sets forth that Mrs. Murray has been known in her profession as an "excellent, special, rare, unique, extraordinary, unusual, uncommon artist, of peculiar intellectual character."

In all, Mrs. Murray charges, Tiffany-Siati contracted with her for the making of eight talking pictures, only one of which actually was made.

She asks that contracts upon which options have not been exercised by the company be voided and that she be permitted to seek employment elsewhere.

Brilliant Farce For Presentation At the Variety

"The Other Woman" Is Title of Play By Toby Leitch Company

The three-act farce comedy, "The Other Woman," is presented by the popular Toby Leitch Players at the Variety Theatre this week.

This scintillating farce comes to Victoria with a record of triumphs in other cities and gives promise of being one of the finest vehicles Raymond Leitch has ever selected for his talented group of players.

Irene, a role played by Leone Weber, is the type of idle rich woman who has nothing to do but invent imaginary illnesses. She develops so many symptoms, indeed, that she soon becomes convinced of a rapidly approaching demise. Wondering whom her husband, Stuart Randolph, will marry after her death, and concerned about his welfare, she decides to select the woman herself.

Her choice falls upon Emily Ladew, a rather carelessly dressed girl who has all but decided to remain a spinster.

Stuart Randolph, for the scheme, the latter understands Irene's peculiar complex and sees in the plan an excellent opportunity to cure her completely.

PARTY CLIMBS BLUFF MOUNTAIN

Alpine Club Members Spend Enjoyable Day in Sooke Area; See Black Bear

Bluff Mountain, Sooke, was the scene of the Alpine Club's outing on Saturday, eighteen members forming the party, which braved rain and snow to reach the summit.

Under the guidance of C. L. Harrison, chairman of the outings committee, the group left the city about 9 o'clock and, after leaving the cars at the end of the Sooke River Road, started the climb about 10 o'clock.

Some rough going was experienced on the way up, but the summit was reached by 1 o'clock, luncheon being enjoyed at the top. A big black bear was encountered, but after one look at the party, ambled off into the bush.

After the descent the party adjourned to the Belvedere Hotel, where a dinner dance was held, some of the non-climbing members of the club joining the group. R. McGraw acted as pianist.

Eight new members joined the club. The next outing will be on March 22 to Muir Creek fossil beds.

"This Thing Called Love"
Now Showing at Dominion
Theatre

Constance Bennett and Edmund Lowe Head Strong Cast

The success "This Thing Called Love" attained on the speaking stage should insure a brilliant success for this smart Pathe comedy in dialogue picture form which is at the Dominion Theatre for a three-day run. Edmund Lowe and Constance Bennett are featured.

As a stage play it was one of the season's big successes. The amazing situations that have been worked out in this picture by the author, centering on the idea of a modern marriage in which the wife stipulates that she is to receive a salary and that neither wife nor husband is to be denied other lovers, provide a great deal of entertainment and much amusement.

Constance Bennett and Edmund Lowe head a brilliant cast. Miss Bennett plays the part of the wife, Lowe, as the husband who has just come from Peru, where he spent fifteen years in mining ventures, is seeking a real home, but accepts this arrangement, believing that he can arouse his wife's jealousy and win her over to the good old-fashioned idea of married life. Others in the cast include Zasu Pitts, Roscoe Karns, Ruth Taylor, Stuart Erwin and Carmelita Geraghty.

SILVER-PRODUCING MINES OF BRITISH COLUMBIA

By V. L. EARDLEY-WILMOT
Dominion Department of Mines

Native silver rarely occurs in British Columbia. Almost all of the metal produced in the province is obtained from silver minerals associated with lead and zinc minerals or less frequently with copper or gold. Nearly every metalliferous mine contains some of the white metal, but, with few exceptions, these mines are small and their commercial existence depends largely on their silver content.

British Columbia had in 1928 the record production of 10,600,000 ounces of silver, which is over 2,000,000 ounces greater than that of Ontario, the next largest silver-producing province. The production estimated for 1929 is only slightly less, being 10,400,000 ounces.

The actual market value of this output is, however, considerably lower than that of the previous year, owing to the lower price of 53.1 cents as compared to 55.2 cents per ounce in 1928. The largest silver producers in British Columbia are mines in which the silver content is low and the metal is only secondary importance, their high output being due to the large tonnage treated. The well-known Sullivan mine, of the Consolidated Mining and Smelting Company, is situated in the East Kootenay district, north of Kimberley. The ore is an immense replacement deposit of very fine-grained galena (lead), sphalerite (zinc), pyrrhotite and pyrites (iron sulphides). The capacity of the concentrator has recently been increased from 4,000 tons to 6,000 tons of ore per day. The silver content averages about four ounces per ton and an output of over 5,000,000 ounces annually is now being maintained, making the Sullivan the largest individual producer of silver in the British Empire.

VALUES HIGH ON SLOCAN
In the Slocan silver-lead-zinc area, between Slocan and Kootenay lakes, the silver values are high. There are about half a dozen concentrators having capacities of 50 to 200 tons per

day each. During 1928, forty shippers produced a total of over 1,000,000 ounces, which is three times the output of 1927, and this activity continued throughout 1929. A new concentrator was erected to treat the Mammoth mine ore, which has a high silver content, and this mine should be a substantial producer. Another producer is the Ruth Hope, which is looking better than in 1928; the Noble Five has high grade silver-lead veins at depths which were never considered a few years ago and their new mill is working to capacity. The Hewitt and the Galena have been consolidated, and remodelled the latter mill, while the Cunningham interests are again active at the Black Colt, in which spectacular silver-lead ore has recently been exposed. The McAllister is probably the only property in the province which is mined for its silver content only. During 1928 it was the largest shipper of silver in the district with 210,000 ounces, but the known ore bodies are now almost depleted. Wallace Mountain camp, at Beaver-dell in the Greenwood district, though comparatively small, is one of the richest silver areas in the province. So much so that the crude ore, averaging 100 ounces per ton, is shipped direct to the Trail smelter without concentration. There are about ten operators in the area, and the output for 1928 was 1,000,000 ounces, a total which will probably be exceeded in 1929.

OPERATING MINES NEAR NELSON

There are a number of operating mines in the Nelson and more southern areas, none of which average more than four or five ounces of silver per ton, but their total output amounts to about 50,000 ounces.

The new 300-ton concentrator of the Monarch mine at Field was in operation in December, treating a large reserve of lead-silver ore averaging 100 ounces silver, from which a substantial output of these metals is expected. The Britannia mine on the coast, north of Vancouver, is essentially a copper producer, having about 0.15 ounces of silver per ton of mill feed, but, on account of the large tonnage treated, this mine is the sixth largest producer, with a little over 200,000 ounces annually.

In the northern part of the province several mines have mill feeds ranging from twenty-five to fifty ounces of silver. Of these the British mine at Smithers on the Skeena river is the largest producer, with over 325,000 ounces, being the third in the province.

RANGE OF YIELDS IN NORTH

Further north, the Granby Company's Hidden Creek mine at Anyox is a large replacement body containing copper with some gold and about 0.30 ounces of silver per ton. Owing to the large tonnage treated the output amounts to over 250,000 ounces of silver, making the Granby Company the fourth largest producer. The Bonanza mine, the company's comparatively new property adjoining on the north, is a similar type of ore body, carrying a little over one-half ounce of silver, and at present accounts for about one-fifth of the silver output from the Anyox mines.

In the Portland Canal district, which borders on Alaska, the Premier mine is the one and only outstanding producer. The ore is a pyrite-gold-silver with a very little lead and zinc, the mill feed being about one-half ounce gold and seven ounces of silver per ton, from which an annual output of about 2,500,000 ounces silver is now being maintained. During the last ten years the Premier has produced over 1,000,000 ounces of gold and 28,000,000 ounces of silver. Recent discoveries below the No. 5 level have prolonged the life of the mine. The British Columbia Silver Mines Limited, adjoining on the north, are operating in the same ore body, but are not likely to be shippers until satisfactory arrangements for handling ore have been made with the Premier Company. Scores of other mines and prospects in this district for many years have been operated but with little production. Small but spectacular finds in which the ore carries native silver have been made, but none so far have turned out to be important producers.

In the far north the recent discoveries in the Tasequeh River area, and a few miles from the Alaska boundary, may lead to future production. The ore zinc averages twenty feet wide, carrying high values in lead, zinc and copper, in which silver is associated with the lead.

With the exception of the Premier, the ores and concentrates from all the British Columbia shippers are treated at the Consolidated Mining and Smelting Company's plant at Trail, in which about eight million ounces of pure silver bullion are refined annually. The company recently reduced the penalty on the zinc content in silver-lead ores, as well as reducing the milling charges.

Bus Versus Tramcar Now Under Analysis

Montreal, March 10. — The bus is safer and in cities slightly speedier than the electric car, according to a detailed analysis of the operating data of a number of utility companies just completed by Stone and Webster Inc. The survey reveals, on the other hand, that the interurban electric car is faster than the interurban bus. The average speed of the city buses during the year ended last June 30 was 10.7 miles against 9 miles per hour for city electric cars, but interurban electric cars averaged 23.1 miles per hour against 21.8 miles per hour for buses. In the territories covered by the study the bus met with fewer accidents than the electric car both in city and suburban traffic. For the year ended June 30, 1929, the city bus was operated 10,070 miles per accident against 4,650 miles per accident for the city electric car. The interurban bus in the same period ran 17,810 miles per accident compared with 9,140 for the electric car. On a basis of per passenger mile it was found that the risk was practically equal for both means of transportation.

Through its subsidiary, Stone and Webster Services Corporation, Stone and Webster Inc. supervises the operation of public utility properties in fifteen states as well as in Canada, Mexico and the West Indies. These properties have an investment exceeding \$400,000,000 and provide utility services to 6,000,000 persons.

DARING PILOT VISITOR IN CITY

G. Swartman, One of Eielson Search Party, Has Sister in City

Gifford Swartman, one of the daring Canadian pilots who answered the Arctic's challenge and joined the tragic search for the late Carl Ben Eielson and his mechanic, Earl Borland, was in Victoria over the week-end on his return to eastern Canada.

Pilot Swartman is the brother of Mrs. N. R. Hill, 608 Wilson Street, and spent Saturday and Sunday with her. He hails originally from Waubesa, Ont.

Speaking of the search over frozen Arctic wastes, Swartman referred to the very difficult flying conditions encountered owing to the terrific blizzards and extreme cold. When Pilots Joe Crocan and Harold Gilling finally located the wrecked Eielson plane after weeks of futile endeavor it brought a very welcome relief to the rescue fliers, he said.

Swartman had the misfortune to crack up his plane when taking off from Nome for Teller. His plane would not clear the trees at the end of the field and he was forced to land, damaging the machine. He was unhurt.

"The theory is," he said, "that Eielson and Borland were making for the lagoon from Teller on their way to the ship Nanuk, which was frozen in near North Cape. The lights was very deceptive, making it difficult to judge distances, and it is believed the wingtip of their machine was caught on a gentle slope of the tundra after which its nose buried in the snow, hurling the occupants out."

Swartman journeyed up the British Columbia Coast to Alaska aboard the United States cutter Chelan, which he boarded at Prince Rupert after racing from the east. He was one of eight other Canadian pilots who aided in the search.

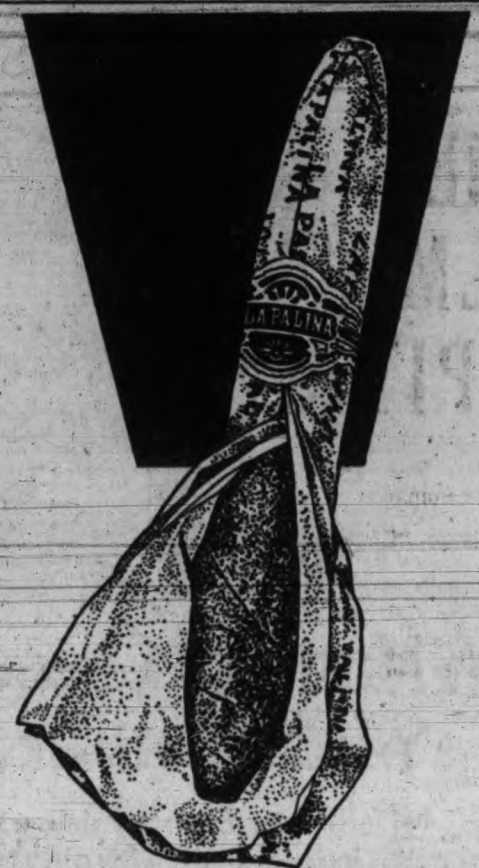

HALF HUNDRED PARALYSIS CASES BLAMED ON RUM

Johnson City, Tenn., March 10.—Fifty-six cases of partial paralysis, in a form which the state has thwarted all efforts at diagnosis, were reported yesterday to health officers of Washington, Carter and Unicoi counties.

Dr. S. S. Moody, Washington County health officer, said thirty-three cases had been reported in his county. He said he was investigating "the possibility that poison alcohol is the cause."

In Carter County, Dr. E. W. King, health officer, reported nineteen. Thirteen were known there on Friday. The Washington County reports indicated an increase of twenty-one known

A Monthly Cheque for you when you are old.

THE investment which will make a man independent in his old age is not a matter of Capital. It is an investment of Income, or rather of part of it, that will do the work. Few of us ever have Capital for this purpose, but all have an Income of some sort.

Investment from Income is purely a matter of Thrift. Not "tightwad" Thrift but a careful, methodical planning of one's Income to make it provide for future as well as present necessities.

Here is an outline of what true Thrift involves:

1. Make a Budget.
2. Keep an intelligent record of expenditures.
3. Insure your life.
4. Have a bank account.
5. Make a will.
6. Own your own home, eventually.
7. Pay your bills promptly.
8. Take more life insurance as an investment.
9. Spend less than you earn.
10. Share with others—Thrift without Charity dries up the Spirit.

For particulars of the Imperial Guaranteed Income Policy which will assure you a monthly Income when you retire, or should you become disabled, write to our nearest office to-day. No telling when you may become "uninsurable."

THE IMPERIAL LIFE ASSURANCE CO. OF CANADA

Head Office TORONTO

FIFTEEN HELD ON CHARGES OF EXTORTION

Chicago, March 10.—Caught in a trap laid by the State Attorney's Office yesterday, fifteen men and a woman were arrested, six of them accused by leaders of a ring which authorities said they believed had extorted \$600,000 or more from Cook County victims within a year by kidnapping and torture.

One of those arrested, Michael Rosenberg, has confessed, according to Chief

Investigator Patrick Roche, that his home was used as a prison for Theodore Kopelman, who helped capture six of the prisoners early yesterday as they sought to extort \$25,000 from him in the exclusive Michigan Boulevard gown shop of his sister, Rosenberg said, according to police, that one of the ring's leaders told him, he had made \$75,000 in the last year as his share. Since there are two other principals besides the six in custody, Roche figures the extortion must have amounted to \$600,000 and possibly more, to care for minor hangers-on.

EASY MONEY, CHIEF FACTOR

New York, March 10.—During the last week cotton and wheat showed lack of stability, showing up in steel operations was predicted, indirect reports from the motor industry were not altogether reassuring and predictions were freely made that in a great majority of cases first quarter industrial earnings would be quite unsatisfactory.

Railroad car loadings showed a continuation of decline and brokers' loans made the substantial gain of \$94,000,000.

All these factors were emphasized at one time or another, but the fact remains that it has been impossible successfully to capitalize them marketwise.

The one factor of easy money with call funds at three and one-half per cent appears to be of more importance as a current market influence than all the others combined.

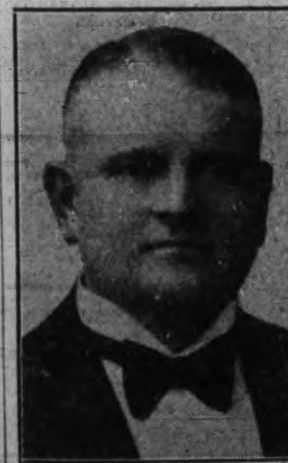

NEW PLANE PLANT ON LULU ISLAND

Vancouver, March 10.—In order to study aeroplane manufacturing conditions throughout Canada and the United States, W. E. Anderson, of the Air-Land Manufacturing Co. Ltd., will make a two-month tour of inspection of leading aeroplane factories. A plant is now under construction

by the company on the south end of the Lulu Island bridge on a site having 600 feet water frontage. Allan McAllister will be superintendent of the factory, which will have a floor area of 100 feet by 110 feet. It is expected the plant will be erected and in operation by April.

Several Junker planes are now en route to the company as a beginning to the operations, and later it is anticipated, seaplanes will be assembled at the Lulu Island plant.

NOW IN VICTORIA

MR. GEORGE HARRIS

Herbalist, Calgary, Alta., manufacturer of Harris' Wonder Health Restorer, will be at Room 341, Dominion Hotel, Tuesday, between 2 and 5 p.m. Watch for tomorrow's advertisement telling of the wonders this Great Herbal Remedy is doing here in Victoria.

Elbow Sleeves
Printed frocks with elbow sleeves are a foregone conclusion for warm weather. Most of them have bands at the elbow, some trying in bows.

WAR MEMORIAL PLAQUE SOUGHT

Col. H. T. Goodlands to Start Campaign to Place Tablet in Cathedral

To Honor "Million British Dead"; Support of Whole Province to Be Sought

With the object of erecting in the Capital City, a provincial memorial to the "Million British Dead," which shall also suggest the hopes and visions of this age for the extension of peace and good-will on earth, Colonel H. T. Goodlands, C.M., D.S.O., has been appointed chairman of a committee to carry out a project suggested originally by a soldier's widow in Victoria, and supported in turn by the Victoria group of the T. T. the heads of service men's organizations in British Columbia, and more recently by a large number of influential citizens in different parts of the province.

Several proposals of a suitable form for the memorial have been considered, and the committee's immediate objective is to obtain a replica of the Memorial Plaque in Westminster Abbey, "Memory to the Memory of One Million British Dead of the British Empire." The plaque is made of gesso in imperishable colors on a marble base.

As similar memorials have been erected in churches throughout the British Empire, it is the committee's hope that this memorial plaque will find a permanent home in the porch of the south-west tower of the new Christ Church Cathedral, and that when this porch is erected there should be placed within it a suitable shrine, to be set apart for ever as a silent tribute to remembrance.

Formal application has been made to the cathedral authorities, asking for the reservation of the south-west porch for this purpose. The project has the support of His Honor the Lieutenant-Governor, Premier Tolmie and the chief executive and honorary officers of all the ex-service organizations in the province.

ILLUSTRATIONS SHOWN

As a means of making the proposal known in all parts of British Columbia, Colonel Goodlands has offered to deliver public lectures, illustrated by a set of copyrighted and hand-colored lantern slides, specially made in France, on the subject of "The War Graves of the British Empire." The first lecture will be given on Friday, March 21, at the Memorial Hall. Subsequently, Colonel Goodlands expects to repeat the lecture in Vancouver. He hopes to make a tour of the province. Lieut.-General Sir Percy Lake, K.C.B., C.M.G., is president of the committee, and Alderman W. T. Straith, vice-president. Honorary vice-presidents include Hon. Joshua Hinchliffe, Minister of Education, Commander L. W. Murray, S.M.C., Esquimalt; Brig.-Gen. J. Sutherland Brown, C.M.G., D.S.O., Colonel W. W. Foster, D.S.O., and Major C. G. Gellin, J.P. The executive committee includes Colonel Lorne Ross, D.S.O., Captain C. J. Money, Captain J. R. MacLeod, B. W. Hartley, F. B. Pemberton and H. T. Ravenhill. An office has been secured temporarily in room 128, Pemberton Building, Victoria.

This Is Clean-up and Paint-up Week

Spring is just around the corner and there's much to be done in the way of cleaning up the garden and preparing the ground for seeding. You can lighten the work by having proper garden tools—a good spade, instead of the old one which has become worn out, a serviceable wheelbarrow or a businesslike hoe. We have a complete stock of dependable tools at quite reasonable prices.

Long-handled round-pointed Shovels	\$1.35	6-inch Garden or Field Hoes	\$1.20
D-handle Spades	\$1.35	8-inch Garden or Field Hoes	\$1.55
D-handle Shovels	\$1.35	4 1/2-inch Garden Hoes	\$1.10
D-handle Spades	\$1.35	12-tooth Excelsior Rakes	\$6.95
All-steel Rakes with concave teeth:		Excelsior Hoes	\$6.95
14-tooth size	\$1.55	Garden Barrows with all-steel tray	
All-steel Straight Tooth Rakes	\$1.15	and malleable iron wheel	\$7.95

Low Prices on Stepladders

A Stepladder is so useful around the house, especially during spring cleaning-time. Just look at these low prices—really surprising, aren't they?

4-foot size	\$1.20	6-foot size	\$1.90
5-foot size	\$1.50	7-foot size	\$2.10

IN MEMORIAM
KITTLE—TURTON In loving memory of our dear son, Wilbert Kittle and Jack Turtin, who passed away, and who was new 10-day.

TIL THE DAY BREAKS

Through our minds to-day are passing thoughts of days gone by. Memories of friends and loved ones. Taken home on high.

Though they're missed they're not forgotten. Memories linger sweet. God will bring them back to us again. When we meet at Jesus' feet.

—Inserted by their loving Fathers, Mothers and Sisters.

CARD OF THANKS

Mrs. L. C. Harris, Gordon Head, and Mr. F. G. Harris, thank their many friends for kindness shown during the illness of their father, Robert Harris, also for sympathy and beautiful floral tributes sent in their loss of a loving father; also to the West Motor Co. and employees for practical sympathy and kind words.

NEW FISHERIES PATROL VESSEL WILL BE BUILT

Department of Fisheries Will Strictly Enforce Fishing Regulations This Year

Specially designed for fishery patrol work off the West Coast of Vancouver Island and in Hecate Strait, the Federal Department of Fisheries will this year put into commission a new vessel, which, when off duty, will probably be stationed in Esquimalt Harbor, along with the present patrol steamer.

It is the intention of the department officials this year to enforce more strictly than ever the regulations against foreign fishing craft harboring in Canadian waters.

The new ship will have a length of 100 feet and a speed of twelve knots, and will be fully equipped with armament and wireless. She will carry a crew of ten.

During the last year several United States fishing boats have been seized for being in Canadian waters for purposes other than sheltering or getting supplies. The Dominion Government intends to end the practice of foreign boats staying in harbor when they should be at sea.

O.B. RESIDENTS ASK CABINET FOR BUS BILL

Appealing for enactment of legislation validating the charter granted the Veterans' Sightseeing and Transportation Company by Oak Bay Municipality, for operation of bus services within that municipality, a deputation of fifty men and women of Oak Bay this afternoon interviewed Premier Tomin and Provincial Cabinet in the executive chamber. After waiting from 2 until nearly 3 o'clock, the deputation was introduced by R. H. Hayward, M.P.P., who pointed out that he was acting as a resident of Oak Bay and not in his capacity of sponsor on the floor of the Legislature of the Oak Bay private bill.

K. R. Streetfield, speaking for the delegation, stated that the government had last year given J. S. H. Matson a bus franchise in Saanich of a character similar to that sought by Oak Bay for the Blue Line, but with a life of twenty years instead of the seven years specified in the Oak Bay agreement. He considered that consistency demanded that Oak Bay receive consideration identical to that already accorded Saanich, and that the private bill should be passed.

A. Miles told of the value of the Blue Line bus service to Oak Bay and declared that the great majority were in support of the legislation being enacted and the franchise accorded the bus service.

Premier Tomin stated that the representations made would be given careful consideration.

Chas. H. Tarbell Of Cumberland Died Saturday

Special to The Times

Cumberland, March 10.—Charles H. Tarbell, pioneer hardware merchant, died on Saturday at the age of seventy-five years. He was one of the best known men of Central Vancouver Island, having been in the business life of Comox and Cumberland for nearly forty years and prominent in Masole circles. He is survived by his widow, one son George and two daughters, Mrs. J. W. Dryden of Victoria and Miss Mollie Tarbell at home. The funeral took place this afternoon at Courtenay.

BAIL SET IN ASSAULT CASE

Bail of \$500 was set for Frank Bland, who is charged in the City Police Court with assault. The case was this morning adjourned until Wednesday morning for the return of defence counsel R. C. Lowe.

Bland faces two counts. He is alleged to have assaulted his son, F. C. Bland, and also to have assaulted C. Hulbert, occasioning actual bodily harm.

James Oxendale, who pleaded guilty to a charge of breaking and entering a dwelling-house, and stealing a watch, was sentenced to three years imprisonment.

NEWS IN BRIEF

Chief Justice Morrison heard a list of chamber applications in the Supreme Court this morning.

The Ward Three Spanish Bachelors' Association will meet on Wednesday evening at 8 o'clock at Gordon Head Hall, Tyndall Avenue, to discuss important business.

George Palmer was fined \$5 in City Police Court this morning for failing to attend a parade of the Canadian Scottish Regiment. The prosecution was made under the Militia Act.

Permit for the construction of a five-room stucco bungalow at 149 Howe Street was issued at the City Hall today to H. M. Cowper. The estimated cost of the work is \$3,500.

During this evening's "Provincial Half Hour" over CPOT, between 7:30 and 8 o'clock, Dr. A. R. Chisholm of the Board of Health, will speak on the interesting topic of "Germs and Immunity."

The Naval Veterans' branch of the Canadian Legion, B.E.L., will hold a general meeting to-morrow evening in the Fairbanks-Morse Building at 6 o'clock to consider the report on the reunion held recently.

A meeting will be held in the Chamber of Commerce to-morrow afternoon at 4 o'clock, at which Major Merritt, divisional commander of the Salvation Army for British Columbia, will present the work of the Salvation Army in Victoria and the proposed new Citadel scheme.

A debate between teams of the Civil Servants Literary and Debating Club and the Effective Speaking group of the junior division of the Chamber of Commerce will be held at the Chamber of Commerce rooms on Thursday evening, commencing at 8 o'clock. The meeting will be open to members of both organizations and their friends.

Col. Ross Napier, who is in charge of the reorganization of the Provincial Civil Service, will attend the smoker of the Victoria Council of the Amalgamated Civil Servants at St. David's Hall, 1414 Douglas Street, March 22. Col. Napier will speak on the history of public administration. Mayor Ancomb will also be present. The meeting will be open to all Federal civil servants.

Rev. Ernest Thomas, D.D., of Toronto, arrived in Victoria this morning to conduct a course of lectures at the Training School for Church and Sunday School workers, which opens at 7:30 o'clock to-night at Memorial Hall. Rev. E. R. McLean, Miss Anne Fountain, and Fred Fidler, the secretaries of the Religious Education Council of British Columbia, were also passengers on the morning boat to Victoria.

OBITUARY

Many beautiful flowers, including tributes from friends in Seattle and Montana, covered the casket and hence at the funeral of Mrs. Alice Sophia McLean, who passed away at her home, 1937 Haultain Street, on March 5. The services were held Saturday afternoon from the Sands Funeral Chapel. Relatives and a large gathering of friends attended the impressive service, which was conducted by Rev. Arthur D. Owen. The hymn "On the Resurrection Morn" was sung, and Mrs. McLean sang two solos, entitled "Crossing the Bar" and "O Love, That Will Not Let Me Go." The pallbearers were L. Ramsey, L. Stephens, J. P. Brown, J. Davis, Woolsey and J. Branson. Interment was made in Royal Oak Burial Park.

There passed away on Saturday evening at his late residence, 929 Johnson Street, Murthel Bennett, aged seventy-six years. Mr. Bennett was born in Ireland and is survived by a brother in Arkansas, U.S.A., one brother in the States, and a sister in Ireland. The remains are resting at McCall Bros. Funeral Home. Announcement of the funeral will be made later.

The funeral of Robert Carter took place from Hayward's B.C. Funeral Chapel Saturday afternoon, proceeding to St. Luke's Church, Cedar Hill, where service was conducted by Rev. S. Ryall. The hymns sung were "Oh Help Us, Lord, Each Hour of Need" and "Thy Day, Not Mine, O Lord." There was a large attendance of friends and floral tributes were received. Interment was made in the cemetery adjoining the church. The pallbearers were: F. J. W. Dryden of Victoria and Miss Mollie Tarbell at home. The funeral took place this afternoon at Courtenay.

"Y" Leaders Give Fine Programme At Stunt Exhibition

With a diversified programme, including tumbling, back and spring work, as well as musical selections and exhibitions, the Y.M.C.A. Leaders' Corps, assisted by the pupils of Mrs. Gaskill's Dancing School, entertained approximately 200 spectators at the gymnasium Saturday evening.

Great interest was taken in the exhibitions of tumbling and apparatus work by the junior employed class, while the singing and novelty numbers of Doug. Park were received with much favorable comment.

A piano duet by Miss Florence Collins and R. R. Cross also drew unstinted applause from the spectators.

An element of humor was introduced into the programme by Fred Campbell, a killed comedian, who greatly amused the gathering with his antics on the parallel bars.

KIMTUKS HEAR MISS E. CARR

Noted Artist Addresses Business Women on Modern Art

An interesting analysis of modern art and its underlying theme of spirituality and imagination was given by Miss Emily Carr, noted Victoria artist and exponent of the modern school, before the Kimtuku Club at its luncheon today. Miss Kate McLaren presided, and Miss Carr was delightfully sung by Miss Parsons.

Miss Marcel Unwin was the fortunate winner of the "friendship" Agnes, made in aid of the clubroom fund, which netted \$34.67. The recent bridge party resulted in \$40 securing to the club funds.

Miss Wigley gave a report of the recent conference of representatives of the service clubs of the city, held for the purpose of considering a service council organization.

Members were reminded to see that their names were on the provincial voters' list, the exercise of the franchise being an obligation of membership.

ATTENTION

A great national organization has room for a high-grade man of 35 or over, with sound judgment and common sense. This is a life job in which industry will be rewarded with large remuneration and unusually attractive future. Reply Box 2550, Times.

HOTEL OWNER IS INJURED IN CAR ACCIDENT

Mrs. M. Shelton of Delhi Hotel in Hospital Following Crash

Mrs. Martha Shelton, proprietor of the Delhi Hotel, 617 Yates Street, was in the Jubilee Hospital today suffering from severe shock and bruises as the result of an automobile accident on East Saanich Road, near Elk Lake, yesterday afternoon.

Mrs. Shelton was a passenger in a car driven by her daughter, Mrs. J. Bradford, 1619 Hollywood Crescent. The car was proceeding downhill when a car in front skidded and it was forced off the road, striking a stump. The occupants were thrown violently forward. Mrs. Bradford and her two children also sustaining face bruises and minor injuries.

The injured lady, an elderly woman, was rushed to the hospital for attention. She was resting comfortably today.

An accident on the same highway, south of Rithet's Hill, resulted in a narrow escape from death for J. R. Terry, Provincial poultry inspector, and his young son, F. Somerville, president of the B.C. Poultry Association.

Mr. Terry's car skidded and left the road and then turned over, pinning the occupants beneath it for several minutes. They were finally able to extricate themselves from the upturned vehicle.

Two Requests Before City For Use of Lansdowne Road Facilities

Two applications for the use of the Lansdowne Road emergency air field for the purposes of private flying are now before the city from different parties, each interested in the prospect of commencing an aviation school here. A report on the offers received will be made to the City Council this evening at its regular meeting.

Before the council and awaiting action now is a petition by City Hall employees seeking a permanent settlement of the issue of grading and raising civic salaries through the means of an independent salary commission. The petition was referred to the finance committee for report. It is signed by fifty members of the City staff, comprising the entire body with the exception of the city controller.

Other business before the council is a routine nature, dealing with committee reports and general communications.

TO DEBATE RIPPLE ROCK TO-MORROW

City Hall Meeting to Discuss Seymour Narrows Navigation

To protest against proposals for removal of Ripple Rock from Seymour Narrows, a public meeting will be held at 8 o'clock at the City Hall council chamber, with Mayor Ancomb in the chair.

Among the speakers will be Arthur Lee and Dr. Lewis Hall, and Albert H. Maynard will show lantern slide views of Ripple Rock and the scenery of Seymour Narrows.

Reduction of Ripple Rock to a level twenty feet below low-water is advocated by the leasing shipping interests. The case for non-interference is upheld by advocates of construction of a railway from Vancouver Island to the mainland, the span across Seymour Narrows to be completed by a bridge with a pier on Ripple Rock.

Dr. Ernest Thomas of Toronto will lecture on "Significant Trends in Education" under the auspices of the New Education Fellowship, at 8:15 o'clock on Thursday evening next at the Girls' Central School, corner of Fernwood Road and Fort Street.

Dr. Thomas will deal with certain implications of the new philosophy emerging from recent findings in the realms of physics, biology and psychology, including some results of experiments which he has carried on.

Dr. Thomas has given courses at McGill and Toronto Universities in this subject, and a very stimulating evening in educational progress are invited to hear this lecture by Dr. Thomas, who is a very able speaker and thoroughly informed on his subject.

DR. E. THOMAS TO SPEAK THURSDAY

Addresses New Education Fellowship on "Significant Trends in Education"

Dr. Ernest Thomas of Toronto will lecture on "Significant Trends in Education" under the auspices of the New Education Fellowship, at 8:15 o'clock on Thursday evening next at the Girls' Central School, corner of Fernwood Road and Fort Street.

Dr. Thomas will deal with certain implications of the new philosophy emerging from recent findings in the realms of physics, biology and psychology, including some results of experiments which he has carried on.

Dr. Thomas has given courses at McGill and Toronto Universities in this subject, and a very stimulating evening in educational progress are invited to hear this lecture by Dr. Thomas, who is a very able speaker and thoroughly informed on his subject.

SOCIAL AND PERSONAL

A quiet wedding took place on Saturday at 2 o'clock when the Rev. Glen Davie, united in marriage Eva, youngest daughter of Mrs. E. Conway and the late Mr. E. Conway, of 869 Queen's Avenue, and Mr. George P. Harris, son of Mr. and Mrs. Stanley Baker, of 688-Rose Street. The bride, who was given away by her brother, Mr. G. Conway, was charming in a French embroidered dress of coral and mauve georgette with hat to match. She carried a bouquet of orchids, roses and carnations. As bridesmaid her sister, Miss I. Conway, looked dainty in a dress of pale pink georgette. The groom was supported by his brother, Mr. P. Harris. After a reception held at the home of the bride's mother, Mr. and Mrs. Harris left for Seattle and Portland, and on their return will live in Victoria.

We have now secured a very limited number of the same model and they go on sale Tuesday. Remember, every set is brand new and carries the famous Rogers 12 months' guarantee. At this price it is the finest radio value ever offered in Victoria. Don't miss it... hurry, because the number of sets is strictly limited.

FLETCHER BROS. (VICTORIA) LTD.

1110 Douglas Street

DAWLEY AND VIPOND MUST FACE TRIAL

Clifford Dawley and Cecil Vipond were this morning committed for trial by Magistrate George Jay on a charge of breaking and entering the home of Mrs. R. B. More, 1012 Monterey Avenue and stealing \$21. D. S. Tait acted for the defence and C. L. Harrison for the prosecution, trial being conducted in the Oak Bay Police Court.

After a plan of the More home had been entered by W. Watson, engineer's assistant, Chief of Police John Synge of Oak Bay and Chief John Fry of the city, testified regarding the arrest of the two accused at the corner of Yates and Douglas Streets on the night of March 2. When brought to the police station, \$21.50 was found on Vipond and \$31.50 on Dawley, it was stated.

Jack Miller, 1049 Monterey Avenue, who was working in the garden of the home on the afternoon of the alleged robbery, identified the accused as two men he had seen enter the grounds of 1012 Monterey Avenue on the day in question. They appeared, he said, as if they were friends going to visit Mrs. More. They went to the rear of the house and returned ten or fifteen minutes later and went up the street. Miller was closely cross-examined by the defence regarding his identification but maintained the accused were the men he had seen.

Andrew Lee, gardener at 1057 Monterey Avenue also testified he had seen the two men enter the front garden of the More premises. He had not then much notice to them, however, and did not see them leave.

Marcus T. Peppis, city detective, gave evidence regarding the general wearing apparel of the two accused and of their physical appearances and gait.

Mr. Tait reserved defence evidence and the Magistrate committed the two to trial by higher court.

TO-DAY'S GRAIN MARKETS

(By Branson, Brown & Co. Limited)
Winnipeg, March 10.—Wheat opened about 1/4 lower, but ran into supporting orders and rallied to 1/2 higher than the close Saturday. The early buying was largely by Chicago interests who were taking our May against sales of their May. Whether this was unwinding of a spread already on, or placing a new spread at the Winnipeg discount of 3c was not known here.

However, after the early demand was satisfied the market again turned and prices broke rather sharply, both in July and October futures, making lows for the crop season.

Chicago around mid-season was a heavy seller of Winnipeg October. Around 1.08 for May there was moderate buying support coming from local board houses, but offerings while not heavy were sufficient to take care of the demand.

The market was fairly active at times with the trade much mixed, with professional spreading and some commission house activity on both sides of the market, but exporters were doing nothing. Seaboard estimated export sales at all positions at 200,000 bushels to 300,000 bushels, practically all Manitoba.

In the cash market there was just a fair demand, but no tendency to advance bids, while holders were not pressing sales. There was some improvement in the price of the May and some of the largest mills were reported to have booked some fair orders.

There was no change in crop news. Coarse grains, especially barley and rye, were weak, especially barley and rye. Scattered liquidation was again in evidence, no buying power of note. The demand for cash grain is flat and exports appear to be in the question, while the domestic trade is for the low grades only.

Dorothy Dix

THE old adage says "all is fair in love and war." This is not true so far as love is concerned. There is no crime so black as treachery in love. The game of hearts is of necessity a gentleman's game in which each player must trust to the other's honor, and it should be played honestly and squarely with all the cards on the table.

Of course, we must all recognize that our emotions are not subject to our control. We cannot love or cease to love at will. And often in our ignorance of our hearts we diagnose our symptoms incorrectly and mistake what is only a passing fancy for a deathless passion. Also we change, and without rhyme or reason lose our taste for some certain individual whom we thought we adored, so that the touch that once thrilled us leaves us cold and we have as little appetite for the kisses that we once hungered for as we have for a second helping of a sweet pudding.

Very often love is not strong enough to endure the strain of a long engagement. Very often love cannot stand the wear and tear of matrimony.

Sometimes a boy who honestly thought himself in love with a girl finds out that her only attraction for him was that of a pretty face, and that it is out of sight out of mind with him. Sometimes the girl finds out that the man she thought her Prince Charming is just a passing stranger who has none of the qualities she desires in a husband.

And there are many pitiful cases where men and women mistake puppy love for the grand passion, or a physical attraction for an absorbing devotion, and who marry wives and husbands who bore them to tears, with whom they have not a thought nor an idea in common, and whom they actually come to hate in the revulsion of their feelings and because they stand between them and real love.

These are just the blunders in love. They are not the criminals. When a girl jilts a boy, or a man breaks an engagement, when a man falls out of love with his wife, or a woman ceases to care for her husband, the aggrieved one always accuses the party of the other part of being a cheat and of having deliberately broken a trusting heart. But it is often the misfortune rather than the fault of those who have ceased to love. They would prefer to go on loving if they could.

The real sinners in love are those who make playthings of love and, like Lady Vere de Vere in the poem, break a country heart for pastime ere they go to town; who just for the kick they get out of watching a man flatter, deliberately start fires that scar lives and leave them nothing but a heap of burnt-out ashes.

There are girls who make a graft of love and whose kisses are as mercenary as those of any woman of the street and as much for sale. They know that men are like sheep about following the leader and that the more popular a girl is the higher men value her. So these girls willfully encourage the attentions of men they never have the slightest intention of marrying in order to get gifts from them, in order to be taken around by them, in order to make them come-ons for richer and more eligible men.

They are the worst sort of cheats because they feed these men, who love them with all their honest hearts and souls, on half-words and half-promises that keep their love alive. They will not let them go. They keep them hanging on with vague promises and elusive hopes until they have accomplished their purpose of snaring the men they want, and then they kick the man they have befooled out of their way as carelessly as they do the strip of carpet on which they have walked to the altar.

Then there are the girls whose vanity demands that a living human sacrifice shall be made to it. These are the girls who find a fiendish delight in flattery and cajoling some middle-aged man into being unfaithful to his wife. They tell him pretty lies about what a boy he is and how much too young for his wife and that they love him for himself alone. And it amuses them to see how big a fool they can make of him and to watch the agony of his poor jealous wife, who sees all that she holds dear in life being taken from her. Many a girl wrecks a home and orphan children and ruins the lives of a man and woman just for sport.

Worse still is the middle-aged woman who preys on boys. It makes her feel young again to feed on the fresh hearts of young lads. It flatters her to think that she can take them away from girls of their own age. She enjoys their adoration, their blind faith, and she uses every art and wile that her long experience with men has taught her to snare them, and then, when she has drained their emotions dry, she laughs at them. And it is nothing to her that she has sullied their souls, that she has made them distrust all women, and that she has taken something beautiful out of their lives that can never come back into them again.

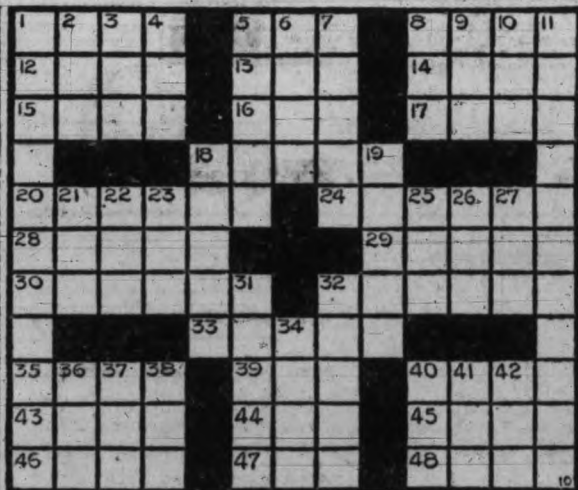

And there are the married men who, to add a little pep to their day, win the love of the girls who work for them. They are adept in love-making that makes the boys' love-making seem crude and lacking in flavor. They know how to appeal to a girl's sympathy with a hard-luck story, how to woo her with gifts and delicate attentions. They know how to break down the barriers which convention and the moralities have built around a girl.

They can't marry her. They don't want to. They are not really in love with her, but it is amusing to them to have a pretty little playmate who trembles at their touch, and it is nothing to them that they fill a girl's heart so full of love for them that it will never have room in it for any other man, or that they have set another desperate girl's feet on the road to hell.

No. Everything isn't fair in love. Love can be the cruellest thing on earth.

Admiral Liner Turns on Side Off Columbia

The derelict steamship, Admiral Benson, which grounded off the mouth of the Columbia River on February 15, has turned over on her side, a prey to the clucking sands on famous "Beak Spit," where so many proud ships have met their doom. Information to this effect was received in Victoria this morning by officials of the Pacific Salvage Company, whose men have been working on the ship since she grounded. A great deal of the cargo and all the fittings and movable things on the ship have been taken off.

DR. F. A. COOK, OUT OF PRISON, PLANS NEW LIFE

(Continued From Page 1)

He came to Leavenworth Prison from Fort Worth, Texas, where he was sentenced to a term of fourteen years and nine months for using the mails to defraud in connection with an oil promotion scheme. He had served nearly five years of this sentence.

Yesterday, admitting he had decided not immediately to eat the large breakfast he had been offered, he said he was feeling fit, but "not hungry." He weighs approximately the same as when he was "dressed in." His cheeks are ruddy. Streaks of grey in his heavy, dark hair are not pronounced.

SMILED AT REPORTERS
Attired in a light blue suit, a soft, white shirt, and well-worn shoes, Dr. Cook smiled at interviewers and said he was going to Chicago.

ORIENT TOUR FOR SUMMER IS ARRANGED

Party Will Pass Through Victoria Aboard President Taft on June 28

On an extensive tour of the Orient which will take three months, a party organized by the American Express Company will pass through Victoria on Saturday afternoon, June 28, aboard the liner President Taft. The party will be limited to forty-five members and will be under the direction of J. Arthur MacLean, curator of Oriental art at the Toledo Museum, and Dorothy Blair, assistant curator of art at the same institution.

After eleven days at sea the tour party will arrive at Yokohama in July 11. An interesting programme has been arranged for Japan and the tourists from the Occident will see all the famous sights of that picturesque land. They will ride in rickshaws, drawn by Japanese coolies; they will attend native theatre performances and will be taken for long drives along blossom-bound highways to Japan's sacred mountains, Fujiyama. The itinerary in the land of the rising sun will include visits to Tokyo, Nikko, Kamakura, Myonoshita, Nara, Kyoto, Korea and Keijo.

The party will arrive in Mukden on July 30. From there the route will be followed into interior China and all the sights of that age-old country will be seen and studied under the guidance of cruise directors who know the Orient. Canton, Hongkong and Shanghai will all be visited, and several days will be spent seeing the sights of those famous cities.

The tourist will board the liner President Jefferson in Shanghai and will continue on that ship through ports of Japan sailing from Yokohama on August 19 for San Francisco. En route across the Pacific a day's visit will be paid at Honolulu. The members of this party also have the option of returning direct to Victoria and Seattle aboard another President liner.

A violet chiffon evening dress has a giraffe made of two padded and twisted bands that end in rosettes of the padded chiffon.

Around the Docks

A full day ahead of schedule, the Blue Funnel liner Tyndareus arrived at the William Head quarantine station this afternoon at 1 o'clock from ports in China and Japan. She docked at the Rithet piers about an hour later and before leaving for Vancouver, discharged fifty tons of general cargo. Several Chinese stevedore passengers left the ship here.

The Federal Department of Public Works' yacht Walonda is based at the Marine Department wharf in the inner harbor from Esquimalt, where she had a Diesel engine installed, and new housing built. Interior finishing is now proceeding on the ship, and she will present the appearance of a new vessel when she is ready to take her first trip in June.

It was 3 o'clock yesterday afternoon before the coastal passenger liner Ruth Alexander docked at the Rithet piers on her way to California. After taking on local passengers she sailed for San Francisco at 4 o'clock. She will be several hours late in reaching the Golden Gate, but will make up her schedule while in the south. The Ruth went to Port Angeles yesterday to pick up cargo which delayed her.

The refrigerated freighter Nabaski, on her way here from the United Kingdom, was delayed in sailing from San Francisco, and it was Saturday night before she got away from that port for Victoria. She will dock at the Rithet piers tomorrow morning with seventy tons of general cargo. Capt. Bridges is in command of the ship.

The C.P.R. steamer Princess Margaret will sail from the Belleville Street piers tomorrow night at 11 o'clock with a fair passenger list and a capacity cargo for ports along the west coast of Vancouver Island, as far north as Port Alice.

Bound for Victoria and Seattle, the American Mail liner President Madison sailed from Yokohama today. She is scheduled to arrive here on March 21.

With forty tons of general cargo for discharge here the Kingsley freighter, Rochelle docked at the Esplanade piers this morning at 6.30 o'clock and proceeded to Vancouver at 8 o'clock.

Outbound to ports in China and Japan, the newly built liner of the Blue Funnel fleet, will pass Victoria tomorrow afternoon with a capacity cargo and a fair passenger list.

On her last trip, before being taken off the North Pacific, the N.Y.K. liner Shizuka Maru will sail from Yokohama tomorrow for the two weeks' crossing to Victoria and Seattle. She will dock here on March 25.

King Brothers, local shipping agents, expect the Furness motor liner Pacific Ranger here next Sunday from the United Kingdom by way of the Panama Canal and California ports. She will come direct from Los Angeles, omitting San Francisco as a port of call this voyage.

The next Canadian Pacific liner due here from the Orient is the Empress of Asia, which will sail from Yokohama tomorrow at 4 o'clock. She will dock here on Saturday, March 22.

The O.S.K. steamship Arizona Maru, outbound to the Orient, will be at the Esplanade piers about an hour on Wednesday afternoon. She will arrive from Seattle at 4 o'clock and will put to sea en route to Yokohama about an hour later.

SAN FRANCISCO SHIPPING

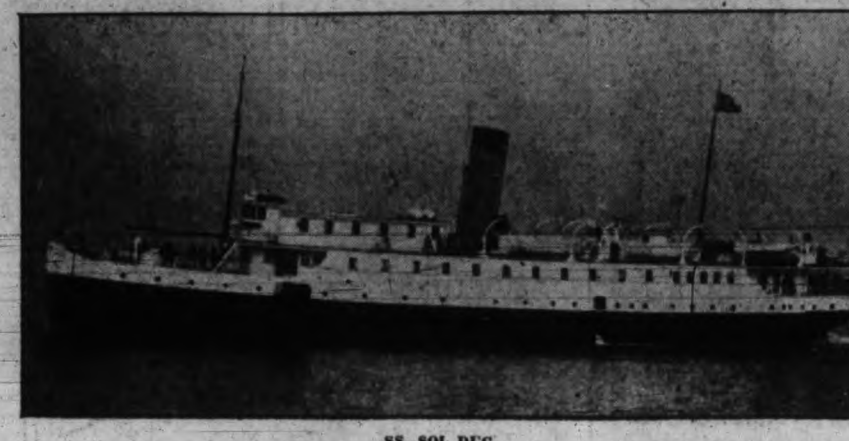

San Francisco, March 10.—Beginning tomorrow United States engineers will begin exhaustive research to discover the best site for a proposed impounding dam and lock across upper San Francisco Bay to divert the Cosumnes River water. With this in view a notice to mariners has been issued warning all vessels of the presence of small boats above Carquinez straits between Martinez and Colma.

Internal combustion engineers of the bay district are awaiting with interest arrival of the new East Asiatic motorship America, now approaching Bangkok on her way here to enter the Pacific Coast-European run for the company. The particular feature that is claiming attention all over the world is the ship's installation in the absence of a scavenger pump for the Burmeister and Wain double acting Diesel engines. There are two pistons in each cylinder, one connected to the shaft and the upper one connected to a crosshead. The explosions take place in the centre of the cylinder and force the two pistons apart. Hitherto an air pump to blow out the explosion refuse has been necessary. Stated the ship's engineering men, will add greatly to efficiency and value of this type.

ROBBER KILLED IN KANSAS CITY

Kansas City, March 10.—An unidentified robber yesterday was shot and killed in North Kansas City by police after he had stolen a taxicab. The man had entered a cab and instructed the driver to take him to North Kansas City. Employees of the cab company, suspicious of his actions, notified police and two patrolmen followed the car in another cab. After reaching North Kansas City the robber drew a pistol and forced Clarence Rutledge, driver of the cab, to get out of the car. The police car soon overtook the taxi and commanded the man halt. He ignored the command and the police fired into the car, killing him.

WELL-KNOWN SHIP RETURNS HERE FOR BRIEF VISIT

SS. SOL DUC

For many years one of the most familiar ships in the Inner Harbor here, was in port yesterday, replacing the regular steamer Troquois which was in drydock in Seattle for cleaning and painting. The Troquois was back on the Victoria run this morning and the Sol Duc returned to the Seattle-Bellingham service.

SHELLY YACHT ONE OF FINEST IN NORTHWEST

Handsone New Cora Marie For Minister of Finance Will Be Visitor Here

The cost finance minister \$165,000 and is luxuriously finished and equipped

Said to be one of the finest sea-going power cruisers of pleasure type on the Pacific Coast, and one of the most handsome and best equipped private yachts in the Northwest, the Cora Marie, will be a frequent visitor to Victoria during the coming summer.

She was launched a few weeks ago in Vancouver for Hon. W. C. Shelly, Provincial Minister of Finance, who makes his business headquarters in Victoria. The magnificent new vessel cost the Finance Minister the sum of \$165,000.

This craft is the product of British Columbia workmen, and as nearly as possible is of British Columbia material. The last word in comfort and roominess, the ship is luxuriously fitted as the most magnificent of the giant de luxe liners, and has been

Other ships of the line due on the Sound this month are the Motorship Hindanger, in the east coast of South America service, and the Arkansas.

The fuel tanks are placed in the engine-room, two 1,250-gallon tanks being in the after part, and the balance of a total of 4,500 gallons being carried in tanks in the forward part of the engine-room. There are also tanks for 2,500 gallons of fresh water.

The fuel oil burner for the hot water system is in the galley, while the galley stove is also fitted to burn fuel oil.

Mr. Shelly does his own navigating, and has a gyroscopic compass installed to the engine-room bulkhead, are two staterooms with dressing rooms and bathroom adjoining. Besides these, there is a large double stateroom aft, and a stateroom on the port side with bathroom and lockers opposite on the starboard side where the companion-way leading on deck is also placed. These cabins are finished in white and cream, with mahogany trim.

In the nineteen-foot engine-room amidships is a seven and one-half kilowatt 110-volt lighting set, while all pumps are electric driven, including
